## WING INSTALL

Left handed unit used for  
Instructions - right will be opposite

### Recommended tools

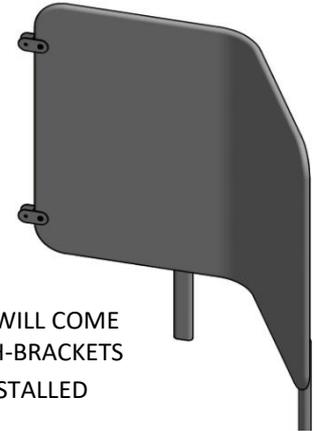

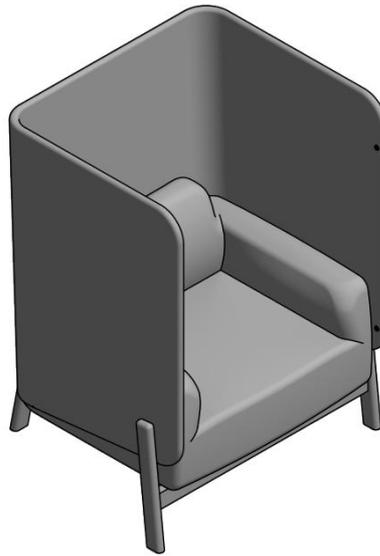

4MM ALLEN WRENCH  
5MM ALLEN WRENCH

### Hardware enclosed

### STEP 2:

- Slide wing “H-Brackets” over end of the screen
- Align holes in the “H-Brackets” on the wing with the holes in the screen (where the connector bolts had been removed)

### STEP 3:

- Insert the connector bolts thru each side of the “H-Bracket” and start threading the bolts by hand until both sets are started.
- Snug down the bolts using the 4mm and 5mm allen wrenches. DO NOT OVER TORQUE. There will a slight amount of play between the bolt heads and the bracket to prevent damage to the bracket finish.
- Properly level unit using the leveling glides
- Install complete.

**NOTE: all screws provided must be installed for proper installation and compliance with product warranty.**
