Bringing comfort where it's needed most

We understand the profound impact of quality healthcare. Just as we've long aspired to ignite passion in people to love what they do, our journey into healthcare is a natural extension — inspiring individuals to love where they thrive, love where they care, and love where they heal.

Four ways to search for finish samples:

SAMPLE KITS

Quickest way to find “Go-To” kits including the COLORWAY KIT, which contains all Veneer, Laminate, Metal and Wood Paint samples.

“Please send a set of JSI finishes to a new dealership to get them started.”

SUBSTRATE

Comprehensive list of all samples.

Filter by material substrate such as Veneer or Metal.

Lists each individual sample and full sets for each material.

“Please send samples of Mocha Veneer, Designer White Laminate and a set of Metal finishes.”

COLORWAY

Woodgrain materials organized by color name. Includes all substrates and species available for each finish.

“Please send samples of the Egret finish in veneer, laminate and solid maple.”

RECOMMENDED ALTS

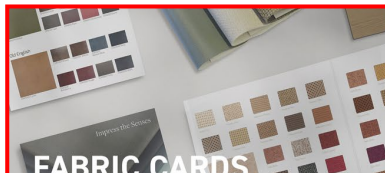

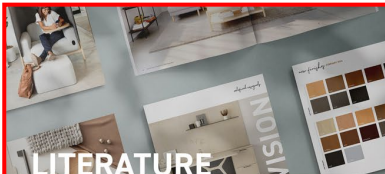

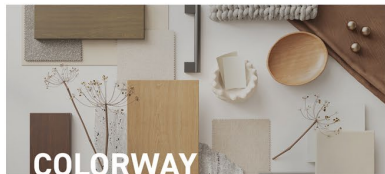

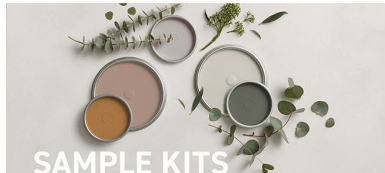

Access the finish samples that were discontinued in February 2024.

Included with each order is JSI’s recommended alternative.

“I specified Ale Medium in the past but it’s now discontinued. Please send me a sample of the closest match so I can compare them.”
