

*sheltered lounge*

# COMFY. CASUAL. PRIVATE.

Whether it's time for a cozy respite or for a relaxed work session away from the desk, Cāav's workspace enclosures and lounge furniture add the element of choice to open offices.

---

*meet Cāav.*

cozy RETREAT.

**SINGULAR  
FOCUS.**

Cāav pods soften all the distractions and create quiet, private spaces for focused, solo work. Kick back, zone out the world, and let the good ideas flow.

*all in* HARMONY.

**A TEAM  
HIDEOUT.**

—

Lounge pods entice small groups to connect, without feeling disconnected from their environment. Media walls support TVs, and modular lounge setups have room for the whole team.

## CONVERSATION STARTER.

Cāav's lounge setups naturally invite collaboration, and features like built-in power units and coat hooks keep distractions off the mind and out of the way.

*flock* TOGETHER.

Modular interaction hubs create multi-level seating options that are perfect for casual presentations around the media console. Pull up an ottoman or a stool and join the group.

## RESIDENTIAL COMFORT.

Soft fabrics and curved lines bring the easiness of home into the office. On-trend dowel legs, built-in power, and swiveling tablet arms make these pieces as smart as they are beautiful.

*without* BOUNDS.

The beauty of Cäav is how it invites people to make it their own. Add or remove modular pieces, go without privacy screens, and see just how conversational Cäav can be.
