

ACTIVE DINING ENVIRONMENTS

## Today, dining spaces work harder than ever.

In today's world, the dining table can become a myriad of different things to different people. For one person, it's a space to rest their elbows, and for another, it's a change of scenery to get some work done. Groups come to talk and end up collaborating, or come to work and end up forming personal connections. And sometimes, everyone is just gathered for a great meal. That's why we've designed a varied and nimble collection of **café + outdoor**, **bar + lounge**, **casual** and **fine dining** options that set the stage for everything a dining space can be.
