

Garvey R5

executive & conference swivel seating

designed by Bill Raftery

garvey R5

Bill Raftery, Raftery Design Inc.

In 1968 Bill Raftery attended Pratt Institute in New York City where he received a Bachelor's Degree in Industrial Design.

His body of work has come to include Executive, Manager and Ergonomic Task Seating designs for companies such as Tuohy, Council, HBF, Superior, Paoli, JOFCO, Taylor, HAG and the Jasper Group.

introduction

garvey R5

crafted for comfort.

Garvey R5's soft curved back and thick cushion seat redefine the meaning of comfort. For conference or private office, Garvey R5 is designed for comfort and mobility.

garvey R5

executive or casual

Choose:
the back that fits the environment
the height that matches the user
the arm that supports the task
the base that works best for the project

garvey R5

**polished aluminum
loop arm with
polyurethane pads**

A sleek, premium look can be achieved with Garvey R5's polished aluminum arms, which pairs perfectly with the aluminum base.

garvey R5

product offering.

Garvey R5 is offered in six models, with many aesthetic and functional features from which to choose: back styles, back heights, arm options, base colors, mechanisms and caster styles.

garvey R5

garvey vs garvey R5

Two aesthetics with the same plush comfort

garvey back style

- rounded, contoured look and feel
- single needle top stitch upholstery detail
- tailored, contemporary aesthetics
- synchro, swivel tilt mechanisms

R5 back style

- pillowed cushion back for added comfort
- false welt upholstery detail
- loose back upholstery for casual aesthetic
- synchro, swivel tilt, seat slider, adjustable back height mechanisms

product offering

garvey R5

back heights

Offered in both high back and mid back heights, Garvey R5 is well suited for executive and management applications. The seat and back are contoured to provide extra comfort as well as lumbar support.

garvey R5

**aluminum loop arm with
polyurethane pads**

The pads are designed with a low
profile and soft rounded edges for
comfort.

arm styles

garvey R5

aluminum loop arm

Clean lines with a modern aesthetic make Garvey R5 seating adaptable to most environment.

arm styles

garvey R5

aluminum arm w/ arm cap

The arm cap is designed for added comfort with cushion providing impact resistance to surface edges and contoured hand grip.

arm styles

garvey R5

polyurethane arm

The polyurethane arm is a one piece molded component with integrated hand grip that also serves to protect work surfaces with which it comes into contact.

arm styles

garvey R5

Adjustable T arm

The adjustable T arm is designed for increased comfort and ergonomic support for many user body types.

arm styles

garvey R5

modern aesthetic

The polished aluminum arms mold around around to the back creating a polished look.
