swivel seating

designed by Mike Shields – Studio3

proxy

 JSI

**performance, ergonomics,  
simplicity.**

An enhancement to our current Proxy offering with upholstered back models that delivers a refined, contemporary aesthetic while maintaining the original beauty, comfort and value.

# proxy

cool comfort air flow through the resilient knit over a metal frame back are the heritage of the Proxy collection

# proxy

providing the same back support and comfort while maintaining the thin profile with the addition of cantilever arm options

# proxy

a hard-working,  
multi-use offering

# proxy

## sit-to-stand

with a foot ring set 9" from the floor and a 10° limited tilt for safety, the sit-to-stand models allow you to adjust from desk height surface to...

# proxy

...collaborative spaces with surfaces adjusted to counter height simply and seamlessly

# proxy

## stools

elevated seating applications with low back models continue to offer same comfort and lumbar support in a lower profile, with a foot ring 13" from the floor and a 10° limited tilt for safety

# proxy

new features and options on knit back models, including thin profile, adjustable arm, update the Proxy product offering

# proxy
