## Environmental Mission

Our vision and goal is a sustaining supplier, manufacturer and customer for the long term protection and preservation of our environment for future generations.

### MISSION

To achieve this vision, we are dedicated to ensuring the health and wellbeing of all of our partners, reducing negative impact on the environment, and maintaining price structure by increasing efficiencies and reducing consumption.

JSI, and its parent company, is an internal manufacturer and has been an environmentally conscious organization for more than 80 years.

We are proud to use wood as our primary sustainable material resource and all corporate policies and procedures support the efforts to “recover, recycle, reuse, repurpose, reduce, refuse, and re-engineer”. In doing this, we are committed to the conservation of the environment and its natural resources as well as encouraging our suppliers and customers to do the same. A goal of a “Sustainable Partnership”, supplier, manufacturer and customer, is essential for the long term protection preservation and sustainability of our environment for future generations.

### LOCATION

Our manufacturing facilities are located in the center of Southern Indiana. With our diverse product offering and manufacturing capabilities, we provide a single source for all of your project needs allowing you to conserve our fossil fuels and reduce greenhouse gases.

### PACKAGING

We place emphasis on the minimal use of disposable packaging while still providing adequate protection to the finished product. Our corrugated packaging is recyclable, reusable, and up to 100% recycled content. We reuse or recycle more than 175 tons of corrugated material annually.

### REGULATORY

All of our manufacturing facilities are in compliance with applicable OSHA regulations and meet or exceed all applicable DEM and EPA regulations for air emissions, storm water and hazardous waste disposal.

### MANUFACTURING FACILITIES

Our manufacturing facilities are geared toward eco-efficiency and are encouraged to continually improve and conserve. Solid wood not used in the direct manufacturing process is recovered for the operation of our dry kilns, thus reducing greenhouse gases, the use of fossil fuels, and the burden of waste placed on landfills. Composite panels not used in the direct manufacturing process are ground and sold for use as animal bedding and boiler fuel. In addition to other energy savings techniques, our manufacturing facilities use high efficient lighting, make use of power factor capacitors, and encourage all to conserve and reduce energy consumption and water usage. Condensation pumps are used to aid in water conservation as well as extending boiler life.

### MANUFACTURING PROCESSES

Our finish processes utilize efficient spray guns and proper spray techniques to reduce wasted material. Excess finish material, solvents, and waste are recycled. Many of the assembly processes use water based glues that contain no hazardous ingredients.

### TEXTILES

Many of our fabric options utilize up to 100% recycled content. Our leather alternative program includes selections that contain no toxic materials, plasticizers, heavy metals, or formaldehyde and have a 100% biodegradable back cloth. Some of the available panel fabric used, if discarded is a biological nutrient for the soil. Most of the components (foam, batting, and polycord) used in upholstered products are recyclable. Excess fabrics and leathers not utilized in the upholstery process go to recyclers and local charities for additional use.

### WOOD

Wood is the most diverse, most process friendly, and most widely utilized natural resource in mankind’s history. No other natural resource can match the environmental advantages of wood, including being renewable, recyclable, natural, carbon negative, and biodegradable. Utilizing the sun’s energy, trees grow and remove carbon dioxide from the air while giving off oxygen to benefit the entire planet. Approximately 49% of wood’s dry weight is carbon and harvesting mature trees in a sustainable forest, which has slowed in the absorption of carbon dioxide, allows the photosynthetic cycle to continue at full optimization and allow for the carbon to remain sequestered. We are proud to use wood as our primary “sustainable” renewable resource.

### WOOD OPTIONS

Many environmentally friendly solid wood and engineered wood options are available for quote, including: Lyptus®, Plyboo®, reclaimed woods, agricultural and post-consumer waste fiber products, etc.

### INDOOR AIR QUALITY

Our goal is to reduce the impact our products will have on the indoor air quality. We practice the latest technologies and utilize a third party to assure we meet this goal. GreenGuard, one of the leaders in IAQ certification, continues to certify our product offering with UL2818 - GreenGuard Indoor Air Quality certification.

### PARTNERSHIPS

BIFMA  
*Business and Institutional Furniture Manufacturer Association*  
 USGBC  
*United States Green Building Council*  
 IIDA

## Lifetime Warranty

JSI warrants to the original purchaser that each piece of furniture will be free from defects in workmanship, given normal use and care for as long as the original customer owns and uses the product. Normal use is defined as the equivalent of a single shift, 40-hour work week.

JSI will, at its option, repair or replace with comparable product within the terms of the warranty.

### Exceptions to Warranty:

#### 12 Years (from date of purchase)

- Wood Seating
- Seating Controls
- Veneer Surfaces
- Laminate Surfaces
- Pneumatic Cylinders

#### 5 Years (from date of purchase)

- Glides · Casters · Task Lights
- Mesh/Knit Material · Foam
- Florette Plastic Frame Chairs
- Electrical Components
- Electric Height Adjustable Bases

### This Warranty Does Not Cover:

- Natural variations in color, grain or texture of wood and other covering materials over which JSI has no control.
- Normal wear, color fastness, shrinkage, puddling, wrinkling and stretching of upholsteries including fabric, vinyl, leather and other textiles. This warranty does not cover any defects that may arise in the use of COM or COL upholstery materials. Textile manufacturer's warranty will apply.
- Damages resulting from transportation, improper assembly, installation, handling, accident, user modification attachments, misuse, or neglect of product care.
- Damage resulting from extreme climate conditions.
- Finish damages resulting from normal wear and tear, improper maintenance, water damage, exposure to sunlight, extreme high or low humidity or temperature, or other acts of nature.
- Damage created by loading file drawers with anything other than hanging folders.

JSI makes no expressed or implied warranties to any product and, in particular, makes no warranty of merchantability of fitness for any particular purpose. JSI will not be liable for any consequential or incidental damages under this warranty.

## Unique Characteristic of Natural Woods and Veneers

JSI uses high quality wood and veneer harvested from sustainably managed forests. Every tree has unique and defining characteristics, like fingerprints. These characteristics can be defined by differences in color, grain configuration, and textures. These characteristics will be more noticeable if the product has a clear or lighter finish.

Maple and Cherry species have a higher degree of uneven distribution of grain, small color streaks, and pin knots.

At JSI, we take care of selecting woods and veneers that are used in our products. With this in mind, we hope you appreciate the beauty of each tree's fingerprints. Products will not be replaced due to these natural characteristics.

Veneers can be sliced in a variety of ways to create unique patterns. JSI uses several different patterns, as shown below.

Flat (Plain) Cut as shown in diagram      Quarter Sliced as shown in diagram

Double Cut as shown in diagram

### Double Cut

The Double Cut veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern.

JSI uses select beech, cherry, maple, oak and walnut cut wood products to produce the desired look of our furniture products.

Please reference the featured highlights of each product line to identify the species and grain patterns available for that product.

### Laminates (Veneer Series)

HPL (Higher Pressure Laminate) laminates can be specified on most of our work surface tops in most of our product lines. Refer to the specification pages for each series. The specification pages will also list the available coordinating finishes.

### Laminate Series

JSI laminate series offer a full laminated product with imprinted grain to hide finger prints and provide durability. The worksurface tops are HPL (High Pressure Laminate). TFL (Thermal Fused Laminate) is used on the product's chassis. Please reference the featured highlights of each product for additional details.

## Finish - Top Coat

To reduce hazardous formaldehyde emissions, we use our proprietary specially designed top coat, DuraTex™. It significantly reduces hazardous formaldehyde emissions and helps improve indoor air quality.

## Finish - Color/Stains

A wide range of stains are available to bring out the beautiful characteristics of each wood species. We coordinate finish color between our veneer stains and solid lumber stains; however, not all may be a perfect match. The stains are continually reviewed for accuracy of color, as well as a constant monitoring of the latest color trends in the furniture market.

## Finish - Matching

Due to the natural characteristics of wood, environmental effects, and material upgrades, JSI cannot guarantee exact finish matches on existing furniture previously ordered.

If an exact match is required to accompany existing furniture, it must be specified at the time of order placement, so specific internal procedures can be followed to ensure a proper and acceptable finish match. We reserve the right to change our finish formula at any time to improve safety, quality, and appearance. Unless a finish match for existing furniture is requested at the time of ordering, we accept no liability for finish that may not match the existing furniture from prior orders.

Solid lumber may inherently have mineral streaks, pits, and various other natural occurrences. Care is taken in selecting the solid lumber to coordinate with the requested finish on our veneer products. This internal selection process is subject to availability of solid lumber parts.

## Custom/Special Finishes

JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first time matches and must be included with the written request.

There is a one time charge of **\$332 list per order** for any non-standard wood finish.

Orders will be entered noting the special finish. A sample match will be provided to the customer. Written approval is needed before the finish process can be started. Delays in approval may have an impact on lead times.

Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finish product.

## Samples

Samples of standard wood finishes, paints colors, metal colors, and standard laminate are available upon request. The fastest way for requests to be filled is by using our website. See below for options to request samples.

Website – jsifurniture.com (click the resource tab)

JSI Sales representatives

Phone – 800.457.4511 – Customer Service

Email – customerservice@jaspergroup.us.com

## Pricing

Prices found in this document or on our website are list prices in U.S. dollars for standard product delivery to one destination. Prices do not include storage, installation, or taxes. Possession of this price list does not constitute an offer to sell. Orders can only be received from approved authorized JSI dealers.

Prices and product information in this document, as well as our website, are subject to change without notice. Reference website for most up to date product offering and pricing.

## Orders

Detailed specification pages are available in the price list at the beginning of each series.

Additional information may be obtained by consulting the Customer Service Department or our website.

Indicate shipping address if different from billing address.

Send Orders To:

US Mail – JSI

225 Clay Street

Jasper, IN 47546

Fax – 812-482-1548

Email – orders@jaspergroup.us.com

JSI reserves the right to make changes in dimensions, styles, or specifications if we believe these changes will improve the safety, quality, or appearance of the product.

Acceptance of orders will be subject to credit approval, barring any acts of governments, or any other causes beyond our control (e.g. strikes, fire, embargo of materials, etc).

## Product Modifications

While we offer a wide range of products to accommodate many possible solutions, we also recognize the needs for our products to be modified from our standard offering.

In the series introduction section of each product, we address modification options for that series.

To see if the desired modification is possible, please contact our Customer Service Department for a quote. Note that order quantities and material availability can affect the quote. Additional information may be requested to fully quote modifications.

## Order Acknowledgments

All orders will be acknowledged promptly upon entry of a clean order. The acknowledgment will show how the order was entered, ship date and any other information pertinent to the order. It is the purchaser's responsibility to verify all the information on the acknowledgment carefully and notify us immediately, in writing, of any discrepancies.

Every reasonable effort is made to ship as acknowledged; however, the acknowledged ship date is approximate. Company will generally ship within five (5) working days of the acknowledged ship date. If a firm ship date is necessary, customer must inform company at time of order and company will make all reasonable efforts to meet each customer's request. Acknowledged shipping dates are contingent upon the force majeure conditions contained in these terms and conditions.

## Quickship

Items indicated with a Quickship symbol  ship within 10 business days of receipt of a clean, credit approved purchase order. Product for up to 20 offices or 20 tables can be selected from the Bourne, Brogan or Finale series. See individual product pages for those models available on quickship. Available capacity is filled by orders as they are received. If normal 10 day Quickship is not available because capacity has been filled, you will be immediately notified. Changes and cancellations to Quickship orders are not allowed under any circumstances.

## Delivery

Our freight policy consists of prepaid freight to the 48 contiguous states; all other shipments are prepaid to port of exit ONLY. JSI reserves the right to select the appropriate carrier and shipment routes, most shipments are on freight carriers that are dedicated furniture specialists. Standard deliveries require a DOCK that can accommodate **75 foot trucks**. Ownership and inspection of product is the responsibility of the buyer upon pickup by the freight carrier. Pricing in this book is for standard delivery only. Standard delivery does **not** include non-dock delivery, inside delivery, residential delivery or installation of product. Fees and changes for non-standard deliveries are listed below.

## Standard Delivery Time

Between 8AM and 3PM Monday through Friday. Special delivery requests can be subject to additional fees to accommodate requests.

## Cancellations and Changes

All orders are considered firm and are not subject to cancellation or change without approval from JSI. All approved changes are subject to additional charges and revised lead times

## No Touch Freight

Our freight is considered "no touch". Therefore, customers are to be prepared to unload freight from inside the truck prior to arrival. In the instance that a driver must unload the shipment, driver assists fees will apply (see fees below).

## Detention Fees

- Carriers are given two-hour maximum time allotment to unload for one-stop truckloads.
- Carriers are given one hour maximum time allotment to unload for multi-stop truckloads

\*Detention fees apply after allotted unloading time and will be at buyer's expense.

## On-Site Deliveries

Shipments to the installation site, and time deliveries are available on full truckloads or slightly less, at no additional charge. Shipments or timed deliveries for smaller shipments may not be available, or if available may require an additional charge.

## Residential Deliveries

Our freight policy prohibits the delivery of freight to a residential property.

## Fees

Orders of less than \$1,000 net . . . . . \$78 net per order  
 Weekday deliveries outside of standard delivery times . . . . . \$250  
 Weekend deliveries (Saturday or Sunday) . . . . . \$500  
 Liftgate Deliveries. . . . . \$100 minimum 5% of net price  
 Driver Assist . . . . . \$75  
 Jobsite Non-Dock Delivery . . . . . \$100  
 Inside Delivery (first floor inside only) - no installation  
 or carton removal. . . . . \$125 minimum 5% of net price

## Warehouse/Storage Fees

Additional storage time with a provided two-week approved notice is calculated at 3% per month of the product amount or per day.

## Please be Advised

- Reconsignment fees are the responsibility of the buyer.
- Any charges arising from failure to meet shipment, re-routing while in transit or carrier storage charges are the responsibility of the buyer.
- Contact Customer Service to inquire about skidding of products, special crating of products and product installation. These requests must be approved by JSI and made at the time of order.
- Carriers have the right to refuse delivery to a specified location if it conflicts with their liability policy.

## Freight Damage

JSI products are packed in cartons and meet or exceed existing codes for furniture and seating products. All shipments are delivered to the carrier in good condition and our liability ceases thereafter. If delivery arrives short or damaged, contact the carrier immediately to file a claim. In the event of concealed damage, notify the carrier and request immediate inspection. Failure to file a claim within 15 days after receipt of merchandise constitutes acceptance and a waiver of any such claims. Please inspect merchandise immediately upon receipt, otherwise there is no recourse. Keep all cartons and packing material, discarding these materials may negate your claim.

Storage of product in areas of uncontrolled humidity and temperature may cause damage to the product and void the JSI warranty.

## Repairs

JSI will not issue credit allowance for any type of repairs without prior written consent.

Sales order, product model numbers, and reason for repair will be expected in order to process the repair request. A digital photo will help to expedite the request. JSI reserves the right to recommend solutions for repair.

## Returns

No merchandise may be returned to JSI without a signed Return Good Authorization (RGA) form issued by our Customer Service Department. Any authorized return not due to damage or defect will be assessed a 45% restocking fee and all return freight charges must be prepaid. Additional restocking fees may apply for any modification, special or custom built product.

Liability for defective merchandise shall be limited to replacement or repair.

Under no circumstance can we accept COD (Cash On Delivery) returns. Any such shipment will be refused.

## Replacement Parts

Obtain information and pricing on replacement parts by contacting Customer Service. Please have the model number available when requesting replacement parts. Additional information may be required to ensure proper replacement parts.

## Care and Maintenance

### Care of Upholstery Surfaces

Cleanability will vary based on the fabric type. For best results, a professional service is recommended. Dirt and crumbs may be gently brushed or vacuumed off. Spills should be wiped up immediately with a cloth. Vinyl textiles can be cleaned with warm soapy water and then wiped down with a warm damp cloth. For more details on any JSI carded fabric and vinyl, please visit our website at [jsifurniture.com](http://jsifurniture.com) or consult the back of the appropriate swatch card for cleaning codes and any specific instructions. For COM materials, consult with the individual textile manufacturer for cleaning codes and any specific instructions pertaining to your particular fabric.

### Maintenance of Mechanical Parts

Clean any lint or debris from the moving parts of the base mechanisms. Mechanisms have been designed and tested to not require lubrication under normal conditions; however, lubricant can be used if needed.

### Care of Wood Edges and Veneer Surfaces

Clean all surfaces frequently with water dampened soft cloth, moving the cloth with the grain direction. Immediately remove any liquids that come in contact with wood surfaces with a blotting action to absorb liquid. Buff dry. Lift objects to move them, never pull them across the finished surface. For an additional safeguard, use a protective surface pad. This will ensure a lasting finish by protecting your furniture from possible damage caused by pens, cups and sharp objects. Avoid exposure of furniture to extremes of heat and cold, or to wide humidity variances. Avoid exposure of furniture to strong sunlight. Avoid exposure of furniture to harsh solvents such as nail polish remover, acetates, etc., as it will cause finish deterioration. If using a protective glass top, place spacer pads under the glass top to allow the wood to breath.

### Care of Metal Finishes

Wash you powder-coated item at least one every six months. Use soft rags only - No abrasives. For stubborn stains and grease marks, use soap and water mixture. Combine 1 gallon of water and 1 cup of the neutral detergent in the bucket. Mix it up by swirling one of the rags around in it. Wipe down the powder coat with a rag that has been dampened with the cleaning solution. Do not scrub, but use gentle, repetitive pressure to remove any built-up grime. Rinse the powder coat off with a rag dampened with clear, clean water. Do not spray it down, but rather wipe it off with the rag. You may need to do this several times to get all the soap off. Wipe the powder coat down with a clean dry rag. This will prevent streaking and spotting.

### Care of Frosted Glass

Use a clean, dry lint free cloth to wipe the surface. Follow with warm water and a clean rag; no soap or chemicals. Wipe dry with a clean, dry lint free cloth. Cleaning the frosted side is not recommended, if desired to clean use the above method but do not spray the water on the frosted side, use a clean rag. Please allow 48 hours for the frosted side to dry and not to show cloudiness.

### Tempered Glass Information

JSI is aware of occasional occurrences of spontaneous glass breakage in various furniture products. Tempered glass makes it stronger and if it breaks, will cause it to break into many small pieces of “cubes” rather than sharp and potentially dangerous shards.

Glass breakage in furniture may occur for a variety of reasons. Tempered glass is particularly prone to breakage from damage (scratches, nicks, etc.) that may occur during shipping, handling, installation, use or maintenance. Exposure to rapid changes in temperature or concentrated temperature zones may also cause breakage.

Tempered glass may also break due to a specific type of imperfection or “inclusion” that occurs within the glass when manufactured. When this condition exists glass breakage may occur without any obvious cause. This is often referred to as “spontaneous” breakage but is a very isolated occurrence in the glass industry.

### Care of Dry Erase Boards

Erase after every use to eliminate ghosting. Clean weekly with a Dry Erase Cleaner. Avoid the use of orange and red Dry Erase Markers. Follow manufacturer cleaning instructions for the eraser. If ghosting or staining remains use a small amount of rubbing alcohol on a clean, soft towel to remove.

### Care of Solid Surface

Although liquids cannot penetrate Solid Surface, it is best to wipe up spills as they occur. Generally, a damp microfiber cloth used with a standard household kitchen spray should remove most stains.

For most residues, all you need to clean your Solid Surface countertops is a warm soapy water, ammonia-based household cleaner or a dedicated countertop cleaner. Do avoid window cleaners; however, as they can leave a waxy build-up that dulls the surface. Always clean using a circular motion.

Film will build up on countertops if water is left to dry on the surface. This film will dull the countertop surface, making the finish appear blotchy and uneven. To prevent film build-up, it is very important to wipe the countertop completely dry immediately after spills and cleaning.

Some color of Solid Surface may require more frequent cleaning to maintain a uniform finish. Darker colors tend to require more attention than lighter colors. Over time, even with proper care, your countertop will acquire a sheen. Dark colors may show light scratches more readily.

### Fire Retardancy

All JSI upholstered components comply with California Bureau of Home Furnishings and Thermal Insulation-Technical Bulletin 117-2013 issued by State of California Department of Consumer Affairs. This standard requires upholstered furniture to be safer from the hazards associated with smolder ignition in all four (4) categories of materials, as applicable.

Compliance with more stringent codes may require special manufacturing considerations and upcharges.

### California Technical Bulletin 133 (CAL 133)

JSI uses a barrier material between the foam cushioning and the upholstery cover in order to comply with CAL 133. The standard upcharge on products specified to comply with CAL 133 is **\$69 list per yard** of textile.

JSI has performed a series of full scale fire tests on samples - representing worst case scenarios of upholstered units - to comply with the requirements of the state of California Technical Bulletin 133 (CAL 133). Products in compliance are labeled in accordance of the standards.

Some product designs and fabric cannot be combined to comply with CAL 133. Because of this, we reserve the right to reject any request for an upholstery cover, including COM, textile may not contain olefin or product style that we feel may compromise the integrity or safety of a product specified to comply with CAL 133.

Contact Customer Service for a quote if you require laboratory certification that a specific product and upholstery combination WILL PASS CAL 133. The quotation will include testing, video, and transportation charges plus the list cost of the sample.

Our standard lead time will apply to products that do not require certification. Allow an additional six weeks over the standard lead time for products that need actual laboratory certification.

The end user, specifier and/or dealer have the responsibility to make sure all products specified will meet the flammability and safety codes of the jurisdiction where the products will be located and used.

### Flame Spread

All JSI may be required to comply with the requirements of Flame Spread based on ASTM standards/NFPA Life Safety Codes and general public knowledge are as follows:

Solid Wood - Class C  
Topcoats - Class A  
Carded Fabric - Class A  
Composite Panels - Class C  
Laminate - Class B

Plastics - According to the NFPA, the lack of stability of plastics under high temperature conditions and inherent combustibility have eliminated the use of plastics for applications requiring a flame spread rating.

Also be advised that improvements may be attained in certain instances with the addition of chemicals which may add additional costs, chemical exposure and/or compromise the integrity of the product.

## Textile Carded Programs

JSI is proud to partner with Maharam, Momentum, Spradling, Stinson, Ultrafabrics and Cortina Leather. Please refer to the respective pages in this pricer for each of these partners. Scan the QR codes on the back of the swatch card for latest grades and other information.

## Textile Grade-In Programs

For the convenience of our specifiers, we have graded in the following suppliers:

Arc Com [www.arc-com.com](http://www.arc-com.com)

Designtex [www.designtex.com](http://www.designtex.com)

Maharam [www.maharam.com](http://www.maharam.com)

Mayer [www.mayerfabrics.com](http://www.mayerfabrics.com)

Momentum [www.themomgroup.com](http://www.themomgroup.com)

Spradling [www.spradlingvinyl.com](http://www.spradlingvinyl.com)

Stinson [www.cfstinson.com](http://www.cfstinson.com)

Ultrafabrics [www.ultrafabricsllc.com](http://www.ultrafabricsllc.com)

Cortina Leather [www.cortinaleathers.com](http://www.cortinaleathers.com)

For memo samples, contact textile suppliers.

Please contact Customer Service for pricing grades on textiles and leathers not listed.

Indicate on purchase order if JSI is to order the fabric.

Grades and availability of fabric are subject to change without notice. Changes could include but are not limited to price increase, discontinued patterns, discontinued colors, etc. See [jsifurniture.com](http://jsifurniture.com) for up to date information.

Many textiles have repeats and the additional yardage required has been factored in for textiles ordered through the JSI Carded and Grade-In Programs. We reserve the right not to match textiles with a horizontal or vertical repeat greater than 17". Additional charges may apply for textile being applied with special instructions.

Some fabric thickness or stiffness may cause issue with proper upholstering of tackable wall panels or upholstery privacy screens. Please contact customer service with concerns on the fabric thickness for these items.

## COM/COL Address

JSI

Attn: COM/COL Department

Receiving B

Dock 71

201 East Martin St.

Orleans, IN 47452

Tag: Dealer Name / Purchase Order #

## General COM Fabric/COL Hide Policy

Refer to the COM/COL Price Columns for list prices.

All yardage requirements listed in the price list are based upon 54" plain non-directional material. Additional yardage may be required based on fabric repeat and matching.

All square footage requirements for COL are based on an average hide size of 50 square feet.

Contact Customer Service for any of the following conditions:

- + approval of COM/COL to be used  
(see policy on the next page)
- + fabric repeats greater than 3"
- + fabric less than 54" wide
- + leather hides smaller than 50 square feet
- + special application requirements request

When requesting information from Customer Service on COM/COL please supply the following information:

- + model number and quantity of the product the COM/COL will be applied
- + COM/COL textile supplier's name
- + name of pattern and color of the textile
- + any special application request

Customer Service will check the database to see if the textile has already been approved. If there is no record for this particular textile then a Memo Sample will be required.

Send a Memo Sample of the COM/COL  
(recommended memo be at least 4" x 4")

JSI

Attn: COM/COL Approval Department

Receiving B

Dock 71

201 East Martin St.

Orleans, IN 47452

JSI takes no responsibility when additional materials must be ordered.

All COM/COL must meet applicable codes and regulations, including TB117-2013. By selecting COM/COL, customer certifies that the material meets such codes. JSI assumes no responsibility for the applicable codes and regulation regarding flammability rating and safety rating of any COM/COL.

JSI will review and test as needed all requests. You will be notified as soon as results are documented by our review personnel. JSI reserves the right to reject any COM/COL on our products. We will provide COM/COL explanation of any unapproved textile whenever possible.

JSI cannot be held responsible for receipt of defective fabrics, as we apply all COM as first quality goods.

We can take no responsibility for tailoring, wear-ability or application of COM/COL textiles. Any warranty claims for the COM/COL Textile materials will fall to the original vendor of the textile, not JSI.

## Specification Tools

JSI products are manufactured to order and provide a multitude of options to address your individual customer needs. As you process your order do not forget to include all the necessary information to allow the order entry process to be completed. Please see the order checklist at the beginning of every series.

JSI Customer Service edits every order for complete information. If details are not included with the purchase order, Customer Service will contact you to answer these questions. If information is not completed in a timely manner it will delay the entry process and could effect your product delivery date. To avoid delay in order entry and potential delay in delivery of your order, please double check the line items to ensure all selections have been completed.

To ensure completion of details on your purchase order, electronic catalogs and specification tools have been developed to aid in the process. These electronic tools include:

**20-20 GIZA Studio and 20-20 CAP Studio** software offers state-of-the-art design, specification, photo-realistic rendering and three-dimensional visualization capabilities for configurable products in the commercial interior design markets. 20-20 GIZA Studio and 20-20 CAP Studio are available for all JSI Casegood and Seating products, in 2D and 3D graphics and the Specifier Catalog. Updates are made monthly reflecting any changes that occurred. To be sure the most up to date information is provided on orders, users of this software program are responsible to update their catalogs.

**CET Designer, by Configura** is an all-in-one software solution for space planning and configuration of products. The intuitive workflow guides you through entire process from idea to reality - supporting every step of the sales process

**ProjectMatrix, Inc.** offers a full software solution for the contract furniture industry. Their software can help you create space plans to specifications for ease of specifying our JSI Casegood and Seating product lines. Updates are made monthly reflecting any changes that occurred. To be sure the most up to date information is provided on orders, users of this software program are responsible to update their catalogs.

**GSAdvantage** is a Federal Government electronic catalog site offered to assist GSA customers in specifying and pricing JSI product. Listed at this site are all contract items and prices under GSA Contract # GS-28F-0030U.

Our JSI website [jsifurniture.com](http://jsifurniture.com) provides many tools to assist in the design and order selection. Included in the site are downloadable images, typicals, product symbols, brochures, contact information, price lists, sales representative locations, warranty and environmental information.

## CCR and SAMS Registration

Jasper Seating Company, Inc. is registered  
Cage Code #31881  
Federal ID #35-0420370

## Product Modifications

We willingly accept customers' modifications to standard products. See product modification information by series at the start of each series under the "Product Modification" sections. If there is a modification you desire that is not listed in this section, please call Customer Service for a modification quote/price

## Acceptance, Modification, Assignment

By placing this order for furniture, material or other products (sometimes collectively referred to as "goods"), customer agrees to these terms and conditions which shall prevail over inconsistent provisions in any other form or document of customer. No change or modification shall be applicable unless set forth in writing and signed by company. Neither this order nor any interest therein shall be assigned by customer except with the prior written consent of company.

## Payment

Customer agrees to pay to company the amount indicated on the invoice, 1% 15 days, net 30 days from date of invoice (U.S. funds only), for goods ordered. Interest will be charged after 30 days from the date of invoice at the rate of one and a half percent (1.5%) per month. International sales will require additional payment arrangements. No goods shall be sold on consignment or conditional sales basis. Payment for the goods delivered hereunder shall constitute acceptance thereof.

## Attorneys' Fees

Customer shall be responsible for all expenses and cost in connection with the enforcement by company of these terms and conditions and the cost of collection (including the fees of any collection agencies to whom the customer's account may be referred), plus reasonable attorneys' fees (which attorneys' fees shall not be less than 25% of the amount due, unless a lower amount is specified by applicable law).

## Remedies

The remedies herein reserved shall be cumulative, and additional to any other or further remedies provided in law or equity. No waiver of a breach of any provision of these terms and conditions shall constitute waiver of any other breach or of such provision.

## Insolvency

Company may forthwith cancel this order in the event of the happening of any of the following or any other comparable event: insolvency of the customer, the filing of a voluntary petition in bankruptcy, the filing of any involuntary petition to have customer declared bankrupt provided it is not vacated within thirty (30) days from the date of filing, the appointment of a receiver or trustee for customer provided such appointment is not vacated within thirty (30) days from the date of such appointment, or the execution by customer of an assignment for the benefit of creditors.

# GSA Terms and Conditions

## Limitation of Liability

The Company shall not under any circumstances be liable to the customer, owner of the goods or any third party for special, indirect, incidental, or consequential damages, including, without limitation, loss of profits or revenues, loss or damage to other property or equipment, cost of capital or of purchased or replacement goods, or expense, delay, or inconvenience cause by or arising from the purchase, sale, use, repair or inability to use the goods or by any performance or non-performance under, or breach of, these terms and conditions. The Company's sole liability for any defective goods shall be its repair or its replacement pursuant to the express warranties set forth above, or if amended, as applicable at the time of manufacture or repair of the goods. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusion may not apply to all customers. Any action resulting from any breach on the part of company as to the goods or services delivered here under must be commenced within one year after the cause of action has occurred.

## Returns and Allowances

Reasonable touch-up and deluxing is the dealer's responsibility. The Company will not make allowances for trip or delivery charges, but will only make allowance for actual work performed to correct manufacturing defects. Allowances may be authorized only by a company officer. It is the responsibility of the field sales representative to inspect any defective merchandise and make suggestions and recommendations as to the proper disposition. Field personnel cannot obligate or bind the company by definite agreement, without final authorization by a company officer. Company will not accept automatic charge backs which do not have prior authorization. All defects must be called to the company's attention upon arrival at the customer's "ship to" destination. To initiate any type of claim or request for parts, it is imperative to have the model number or fabric number, which may be located on the tag attached to the frame of the unit. Authorization for return to the company via a return goods authorization. Company will not issue credit allowances for any repairs without company's prior consent. Under no circumstances shall the company accept COD (cash on delivery) returns, and any such shipment will be refused.

## Security Agreement

The Company may require and customer shall grant a security interest in goods sold pursuant to any credit the company may extend to the customer.

## Governing Law

All disputes between the parties, whether or not arising out of these terms and conditions, will be governed by the laws of the state of Indiana. Customer agrees to submit to the jurisdiction of and agrees all lawsuits relating to any disputes between the customer and the company will be brought only in a state court located in Dubois County, Indiana or the United States District Court for the Southern District of Indiana. The customer hereby waives the right to a trial by jury in any action, proceeding, claim, or counterclaim whether in contract or tort, at law or in equity, arising out of or relating in any way to these terms and conditions and all other disputes between the parties.

## Mitigation

If the company repossesses the goods prior to payment by the customer of all amounts due hereunder, the company may sell the goods, as is, where is, free and clear of all rights of the customer at either public or private sales, and apply the net proceeds (after deducting expenses of repossession and sale) to the obligation of customer hereunder. The customer may dispose of the goods in any commercially reasonable place and manner and the customer waives any notice of time, place and manner of sale.

## Integration

This order for goods, including these terms and conditions, along with any credit application, invoice, statement, dealer contract, acknowledgment, bill of lading (and any exhibits, addenda or amendments thereto) of which this order may be a part, constitutes the sole and complete agreement between the company and the customer with respect to the purchase of the goods.

## Dimensions/Specifications/Finishes

All dimensions are approximate and may vary due to the upholstery technique of each craftsman. If exact dimensions are required, it is necessary for the customer to state such specifications with the order. Detailed specifications sheets are available for each series of goods, and customer should consult the company's customer service department for these specification sheets. Company reserves the right to make changes in dimensions, style, or specifications if company believes these changes will improve the goods' quality or appearance. Company reserves the right to substitute hardwoods due to availability at production. Due to the natural characteristics of wood, environmental effects, and material upgrades, the company cannot guarantee exact finish matches on existing goods previously ordered from company. If an exact match to customer's existing goods is required, it must be specified so that the proper procedures can be followed to ensure an acceptable finish. Company will accept no liability for the finish if this procedure isn't followed. Company reserves the right to make changes in a finish formula if company believes the change will improve the quality or appearance of company's goods.

## Company's Performance of Its Obligation

The production and delivery of the goods to the extent delayed or hindered or prevented from the performance by reason of natural disasters, acts of god, strikes, lockouts, labor troubles, inability to procure materials, casualties, failure of power, restrictive governmental laws or regulations, riots, insurrections, acts of terrorism, war or other reason of a like nature not the fault of the company shall excuse for the period of the delay the company's performance and the period for the performance shall be extended for a period equivalent to the period of such delay.

# Apogee™ Product Information

## Wood Materials

Exterior surfaces are made from the finest selected veneers. Matching solid lumber wood species are used to coordinate with the veneer. High quality MDF is used on the painted surfaces.

Apogee™ is available in quarter cut Walnut, quarter cut Maple, quarter cut Makore or Double Cut veneer.

## Exterior Metal Materials

A custom shaped extruded anodized aluminum pull is used on the drawers and doors. The thin profile glass door frame is also anodized aluminum, along with the valance rail used with task lights on overheads.

Leg and Post frames are fabricated steel tubing finished with a Bright White or Arctic Silver powder coat. Shelf dividers, wire dividers, and other metal trims are fabricated and finished in a matching Silver powder coat.

## Metal Finishes

ASL Arctic Silver                      BWH Bright White

## Worksurface Construction

All tops are 1 3/8" thick with 3-ply construction and trimmed off with matching 1.5mm rims. Worksurface tops are only available in the Apogee™ veneer options. Requests for laminated tops will need to be reviewed for approval, contact Customer Service.

## Case Construction

All cases are constructed with mortise, tenon, and dowels. Interior cases are reinforced with glued cleats and screws. Panels for cases are normally 3/4" thick with 3-ply construction. All pedestals have enclosed bottoms.

Plinth style bases are attached directly to the bottom of the cases. The metal glide housing inside the base provides for accurate leveling. Front and back glides in drawer pedestals can be adjusted up and down by removing the lower drawer and using the glide access hole located in the bottom of the case.

Cabinet doors have 110° swing hinges to allow adequate access into cabinets. Hinges are fitted with a soft close device, requiring only a soft push to close the door. Units taller than 18" are fitted with an adjustable shelf.

## Drawer Construction

Drawers are assembled using a four corner dovetail box and 3/4" thick drawer bottom panel construction. The exterior front is attached separately. Sides and backs are approximately 1/2" thick solid hardwood. Drawer components have a UV finish to protect against shrinking, swelling, or warping and to provide a clean smooth feel and appearance. Lateral files have reinforced bottoms.

The exterior front panel is 3-ply and 3/4" thick. The front is attached to the assembled drawer box. The anodized aluminum pull runs along the top or bottom edge of the drawer front.

box drawer and front with pulls (middle drawer)  
wood drawer box - DRW

## Drawer Suspensions

Suspensions are black and carry a lifetime warranty. File and Box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear. Suspensions on utility, box and file drawers have a soft close device, allowing for an effortless closing of the drawer.

## Filing Systems

All drawers intended for filing come with clips and metal stretchers to accommodate hanging folders.

## Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Apogee™. Please see the chart below. Samples are available upon request.

### MK2 Makore Quarter Cut Veneer

BRL Barley	EAR Earthy
BBM Bourbon Medium	HRV Harvest
BRM Brighton Medium	LGC Legacy
CLA Classic	PRL Praline
CLL Collectors	SAF Saffron

### MA2 Maple Quarter Cut Veneer

ALM Ale Medium	FLX Flax
BUT Butterscotch	VEN Venetian
CIN Cinnamon	

### WA2 Walnut Quarter Cut Veneer

AUB Auburn	SIE Sienna
ESP Espresso	TOF Toffee
MCH Mocha	TRF Truffle
NTO Night Owl	

### DC1 Double Cut Veneer

COF Coffee	GRH Graphite
CRM Cremello	KHK Khaki
FOS Fossil	STU Studio Teak

### PNT Paint MDF Board

BKD Backdrop	GRV Greek Villa
BFX Black Fox	NET Network Gray
BWH Bright White	NWH Nonchalant White
CGP Cargo Pants	STM Storm
CHT Chatroom	TRC Tricorn Black
FRR French Roast	

## Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

## DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe. Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood. Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

## Apogee™ Product Information

### Product Modification

#### Special Finishes

Special finishes can be requested by following the instructions in the general introduction section, page 5. There is a one time charge of \$332 list per order.

#### Premium Veneer

Upon request standard veneer can be changed to a special veneer contact Customer Service for availability and pricing.

#### Pedestal Configuration Change

Utility/Box/File configuration is standard on all desks and File/File configuration is standard on all return units.

Apogee drawer configuration on pedestals 29½" high can be reconfigured to a Utility/Box/File or File/File configuration, but must be specified at the time of order with an additional \$178 list per pedestal.

#### Grommets

Please see page 50 for location and placement availability. Add \$99 list for each grommet.

#### Modesty Panel

End Panel Desks are standard with a partial modesty. A full modesty is available as an option and should be ordered with the desk. See price list pages for availability and pricing.

Run-Off Desks are standard without a modesty. Optional partial or full modesty may be specified on the desk. See price list pages for availability and pricing.

#### Mini Shelf

Aluminum mini shelf is optional on the insert panel overhead cabinets. This option needs to be specified with the overhead cabinet.

#### Special Sizes and Construction

Apogee has various modular units to create many popular applications. Please contact Customer Service if you need help in creating a particular layout.

## Apogee™ Product Information

### Ergo Adjustable Work Height Mechanism

Our proprietary adjustable work height mechanism can be specified on many of the models in Apogee.

ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button control activates the electric powered lifting columns for adjustability from sitting height to a standing height. A  $\frac{3}{4}$ " thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that Ergo adds  $\frac{3}{4}$ " to the standard height of the desk and the installation will decrease kneespace depth by 8".

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When Ergo is added to a worksurface in an "L" or "U" group, all units in the configuration need to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the Ergo mechanism and the top. This is accomplished by adding a  $\frac{3}{4}$ " sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the Ergo mechanism.

Height adjustment starts at 30  $\frac{1}{4}$ ", to a standing height of 49  $\frac{3}{4}$ ", a range of 19  $\frac{1}{2}$ ".

**Note:** The kneespace depth is decreased when the ERGO mechanism is specified. Contact Customer Service for dimension information.

The Ergo mechanism and controls are warranted for a period of (1) year. The rest of the casegood unit(s) are warranted under the normal fifteen (15) year warranty.

Example

AP1-SPR-1-3066L (with ERGO option) add \$4,223 to list  
 AP3-BMR-1-2250 (with ERGO ADJACENT option) add \$635 to list  
 AP2-OCP-1-2266R (with ERGO ADJACENT option) add \$635 to list

# Apogee™ Product Information

## Quarter Cut Veneer Grain Direction

### Quarter Cut Veneer

Standard direction for quarter cut veneer on Apogee™ is vertical.

The log is cut into quarters prior to slicing. This method bisects annual growth rings and results in a straight grain or ribbon-striped appearance.

## Apogee™ Product Information

### Double Cut Veneer Grain Direction

#### Double Cut Veneer

Standard direction for double cut veneer on Apogee™ is horizontal.

This veneer uses multiple layers of thin wood which is re-assembled, then re-cut in a factory, under controlled specifications. The veneer used in our program is a uniform straight grain pattern and is pre-stained for color consistency.

## Apogee™ Product Information

### Layouts

Two typical casegood layouts that can easily be created with Apogee™

Casegood layout made up of modular components, Trapezoid Run-Off Desk, One-High Lateral with Full Height Wall Access, Towers, Wall Mount Overhead, and Asymmetric Shelf

U-Group layout made up of built up, free standing casegood components, End Panel Desk, Full Height Access, Panel-Support Overhead, Tower, Wardrobe and Two-High Lateral

### Casegoods feature modular wall components including: storage overhead cabinets, asymmetric shelves and back panels

Two heights & two depths of wall components  
Wall-mount or Panel-supported Overheads  
Casegood worksurface tops specified separately

#### 1 Overhead, Wall Mount

#### 2 Wall Panel

Available in veneer, magnetic glass markerboard, paint or tackable fabric. Thin profile anodized aluminum frame is featured on the panels with the glass option.

#### 3 Wall Panel with Mini Shelf

Available in veneer, magnetic glass markerboard, paint or tackable fabric. Thin profile anodized aluminum frame is featured on the panels with the glass option. 5" Mini shelf is finished in anodized aluminum.

#### 4 Run-Off Desk

Has an option for partial or full modesty panels in veneer or paint.

#### 5 Tops

Modular items can be attached together with common worksurface tops. Refer to the items, some tops may be included.

#### 6 Low Storage: Two-High Lateral File

#### 7 Low Storage: One-High Lateral File

#### 8 Low Storage: Wall Access Panel (partial height)

Allow for wiring to pass through to building wall.

#### 9 Storage Tower

#### 10 Asymmetric Shelf

#### 11 Accessories: Piling Shuttle (tops with shuttle tracks)

Shuttle slides back and forth on the track.

# Apogee™ Product Information

APOGEE™

# Apogee™ Product Information

## Layouts

Two typical workwall layouts that can easily be created with Apogee™

Workwall grouping with Arc End Runoff Desk, Two-High Lateral Files, Full Height Wall Access with two piece Workwall and Workcenter

U-Group layout with End Panel Desk, Bridge Top, One-High and Two High Lateral Files, Partial Wall Access Panels, Open Workwall Shelves with Magnetic Back Painted Glass Markerboard

## Workwalls can be specified with Open Shelves or Workwall with Work Centers solutions

One height & one depth of workwall  
Left and Right End Section specified as a set  
Tops are included with each section of workwalls components

### 1 Sections of WorkWall

Doors available in veneer finish, paint, or back painted glass with or without magnetic feature. Wall attachment required.

### 2 Workcenter

Five different configurations: combination of shelves with wire dividers, lower cubby, glass markerboards, monitor opening, refer to pages 169-172.

### 3 Open Frame Desk with Return Console Feature

Frame available in two finishes, Bright White or Arctic Silver.  
Power & Data unit available as an option.

### 4 Tops (included with WorkWall components)

### 5 Partial Wall Access Panel

Tops included with some units.

### 6 Low Storage: One-High Lateral File

### 7 Low Storage: Console Connector with Hinged Door

Use in conjunction with return console, provides pass thru for wiring from the desk to the building wall.

### 8 Return Console

Sliding door opens up to lift out charging and organization trays lined in felt. Section under desk provides access to wire storage and includes a power strip.

### 9 Low Storage: Two-High Lateral File

### 10 Accessories: Leather Desk Pad

### 71" Overall Height

			
wardrobe	70½"	overall*	71"

\*overall height is rounded up, consideration for leveling tolerance is included.

Apogee™ Product Information

86" Overall Height

APOGEE™

*Important*  
Tops are included with the work wall

Upper workwall component will not work with other overhead components  
(Storage Overhead, Wall Mount Overheads, Towers and Asymmetric Shelves)

			
wardrobe	85 ½"	workwall with sliding door	57"
		lateral without top and wall access panel	28 ½"
overall*	86"		86"

\*overall height is rounded up, consideration for leveling tolerance is included.

## Apogee™ Product Information

- 1 Select an overall layout style (primary runoff, U grouping or freestanding table desk). Consider the overall width, Workwalls are available in 144" or 120" widths. Then determine the method of support for secondary workwall top, see page 59.
- 2 Choose the workwall, either full open shelves or units with an open center section and doors. When choosing the units with doors you must also select a workcenter, this is required and is specified as a separate model.

- 3 If using one-high storage/lateral, select the correct kneespace access unit. If side units such as wardrobe cabinets flank the workwall use the unit without the built in support extensions.

**Note:** These units are only needed when NOT using a workwall and without adjacent storage support

- 4 Choose the lower units to complete the workwall.

- 5 Choose run-off desk to finish the layout.

# Apogee™ Product Information

## End Panel Transition to Access Panel

End panel transition supports and creates a transition when using a standard end panel desk and bridge; turning the corner to a kneespace access panel. (This item can be flipped for left or right).

(tops removed to show application)

## End Support

End support can be used to end a run of modular units or to turn the corner. Front corners are mitered. (Unit can be used for left or right applications).

(tops removed to show application)

(tops removed to show application)

## Apogee™ Product Information

### Floating Top Appearance

Partial height kneespace access panels are used above one-high storage units to support floating workwall tops. Depending on adjacent storage and support, different types of wall access panels are required.

If you are using a Workwall or have top support on both sides, you can use the Wall Access Panel. If you are not using a Workwall and do not have top support on both sides, a Wall Access Panel with Support Panels is required.

#### Wall Access Panel with Support Panels

Use the partial wall access units with panel support when configuring examples 1, 2 & 3 see page 135.

#### Example 1

This example needs the additional support for the top, shown with a 15" deep top.

#### Example 2

The wall access panel 72" wide has the support panel on the outside which supports the 22" deep top.

#### Example 3

Support for this configuration is needed for the top and the asymmetric shelves and towers.

#### Wall Access Panel

The partial wall access panels as shown above are used in configuration examples 4 & 5 see page 134.

#### Example 4

The top is supported from both sides, shown with a 22" deep top.

#### Example 5

Tops are part of the wall hung workwall components. It is recommended the wall access panel be attached to the wall.

## Finish & Paint Scheme

(see page 62 for list finish options)

**tops** - veneer only  
**chassis/drawer fronts** - veneer or paint  
**base** - must match either top or chassis

can only choose one veneer finish and one paint per unit

**top and table top apron** - veneer only  
**leg accent** - veneer or paint  
**metal frame** - arctic silver or bright white

can only choose one veneer finish and one paint per unit

**top** - veneer only  
**modesty panel** - veneer or paint  
**post panel** - veneer or paint  
**metal frame** - arctic silver or bright white

can only choose one veneer finish and one paint per unit

**top** - veneer only  
**wall access unit, back panel and chassis/fronts** - veneer or paint  
**base** - must match top or wall access unit, back panel and chassis/front

can only choose one veneer finish and one paint per unit

*optional cushions can be order to create a bench*

## Apogee™ Product Information

**chassis** - veneer or paint

**doors** - veneer or paint

**insert panel** - veneer, paint, magnetic back painted white glass or fabric  
(requires a specification)

can only choose one veneer finish and one paint per unit

**workwall top** - veneer only

**chassis** - veneer (same as workwall top) or paint

**cubby** - paint only

**divider** - silver

**niche** - paint only

can only choose one veneer finish and one paint per unit

**upper chassis/door fronts** - veneer or paint

**lower chassis/drawer fronts** - veneer or paint

**base** - veneer or paint

can only choose one veneer finish and one paint per unit

*scheme allows one high modular components to match lower sections of wardrobe cabinets*

**outer case** - paint

**divider/liner** - charcoal felt

**upper organizer tray** - matches outer case

**paper tray** - paint or veneer

can only choose one veneer finish and one paint per unit

	15	6	28 3/8	34	2	AM7-CSP-1-1506	\$1,176

- use with modular components at the end of a run
- attachment bracket included
- non-handed, requires field boring for hardware
- adjustable levelers/glides

End Panel Transition to Access Panel	22	6	28 3/8	45	4	AM7-EPT-1-2206	\$1,461
	15	6	28 3/8	41	3	AM7-EPT-1-1506	\$1,263

- creates the transition from 1 1/8" panel to 6" thick access panel
- top attachment hardware included
- non-handed, bored for left or right applications
- adjustable levelers/glides

# Bourne Tables and Storage Product Information

## Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Bourne product line. To attain a pleasing, symmetrical pattern, all veneers in Bourne are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

### Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Bourne is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Bourne Veneer product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern.

The diagram below shows the tight pattern used on Bourne Double Cut Veneer.

## Worksurface Construction

### Veneer and Laminate Worksurface

Worksurfaces are 1 3/16" thick and are manufactured with 3-ply balanced construction. Surfaces are available in wood veneer or high pressure laminate. MDF edges on table tops have an undercut bevel profile and are painted to match top.

### Solid Surface Worksurface

Solid surface worksurfaces are constructed with a 1/2" thick solid surface top and a 1/16" thick wood sub-top. Total thickness of this mixed material worksurface is 1 3/16". MDF edges on sub-top have an undercut bevel profile and are painted to match top.

## JSI Quickship Program

Laminates available on the  quickship program include the following: Aged Ash (AGA), Ale Light (ALL), Bourbon Light (BOL), Brighton Light (BGL), Collectors (CLL), Designer White (DWH), Florence Walnut (FLO), Graphite (GRH), Pinnacle Walnut (PIN), Slate Grey (SLG), Studio Teak (STU), Vintage (VIN) and Walnut Heights (WLH).

Bourne Veneer species available on the quickship program include Cherry, Maple, Walnut and the following Double Cut veneers: Graphite (GRH), Khaki (KHK) and Studio Teak (STU).

Solid Surface tops available on the quickship program are available in Pure White (PUR) only.

## Casework Construction

Casework tops are made up of layers of hardwood veneers molded to shape and RF cured. Outer veneers are matched for uniform grain patterns. All casework tops are 3/4" thick plywood.

Casework chassis, doors and drawer fronts consist of veneer over composite wood core; all wood core components are 3/4" thick.

Cabinet doors have 110° swing hinges to allow adequate access into the interior of the cabinet.

## Drawers

The 9ply unidirectional hardwood sides of the drawer box are 7/16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is 1/4" thick fitting into a groove machined into the side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.

## Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

## Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Bourne. Please see the chart below. Samples are available upon request.

## Bourne Tables and Storage Product Information

### Finish - Stain/Colors (continued)

#### PNT Paint (continued)

CGP Cargo Pants	STM Storm
CHT Chatroom	TRC Tricorn Black
FRR French Roast	

### Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

### DuraTex™ Features

**Safety** - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the of the indoor air we breathe.

**Quality** - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

**Durability** - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

To reduce hazardous formaldehyde emission we use our proprietary specially design top coat, DuraTex™. We are proud that our finish is GreenGuard certified.

### Care of Wood Edges and Veneer Surfaces

Clean all surfaces frequently with water dampened soft cloth, moving the cloth with the grain direction. Immediately remove any liquids that come in contact with wood surfaces, with a blotting action to absorb liquid. Buff dry. Lift objects to move them, never pull them across the finished surface. Avoid exposure of furniture to extremes of heat, cold, and wide variance of humidity. Avoid exposure of furniture to strong sunlight. Avoid exposure of furniture to harsh solvents such as nail polish remover, acetates, etc., as it will cause finish deterioration.

### Metal Components

Wipe smooth powder coat finishes and textured metals with a damp cloth. For stubborn stains and grease marks, use soap and water. Lightly brush textured metals with a soft, dry brush to remove dirt.

## Top Edge Details

Knife Edge - Veneer & Laminate

Painted Knife Edge with Solid Surface Top

## Optional Power Units

### Worksurface Surface Power

Optional Worksurface Power (EC26) is available on standard, counter and bar height tables. Indicate "to accommodate Worksurface Power" on your purchase order. When this option is specified the worksurface will have one cut out in the center. One EC26 Worksurface Power unit must be ordered separately, see page 199. Length of cord is 10 feet.

### Under Surface Power

Under Surface Power (EC27) may be ordered for standard, counter and bar height tables. The EC27 Under Surface Power Unit(s) must be ordered separately, see page 199. This unit is field installed. Length of cord is 10 feet.

Bourne Tables and Casework Product Information

Wire Management - Standard and Counter Height Tables

Standard and counter height tables with metal legs contain one leg with a wire management channel/exit cutout which is accessed and concealed with a wood cap. This wire management leg can be attached to any corner of the table during assembly. Predetermining which corner of table cord exit is desired and assembly accordingly.

Wire Management - Bar Height Tables

Bar height tables with metal legs has a set of legs on one side of table with wire management channel and exit cutout. The management channels are accessed and concealed with wood caps.

## Bourne Tables and Casework Product Information

### Optional Accessory Hooks

Optional satin stainless steel accessory hooks are available on the 30"h, 36"h and 40"h tables.

Four Hooks - add \$172 list

### Integrated Metal Pull

Storage Units offer integrated clear anodized aluminum pulls standard.

#### To Order, Specify:

- Model Number
- Top Material:
  - Veneer
    - Wood Species - Cherry (CH1), Maple (MA1), Walnut (WA1) or Double Cut (DC1)
  - Finish Color
- Laminate
  - Laminate Color
- Solid Surface - Armadillo (ARM), Pebble Pearl (PEB), or Pure White (PUR)
- Legs/Apron Species:
  - Maple (M)
    - Finish Color - cherry, maple, walnut or paint color on maple legs/apron
  - Walnut (W) - upcharge applies
    - Finish Color - walnut finishes only on walnut legs/apron
- Optional Accessory Hooks - four hooks; specify and add \$172 list, (see page 183)
- Optional Power Units:
  - Work Surface Power; specify with EC26 cut-out. EC26 must be ordered separately, (see page 199)
  - Under Surface Power; mounts under top. EC27 must be ordered separately, (see page 199)

#### ② Veneer Top Finish Options:

Cherry	Maple	Walnut
BRL Barley	ALM Ale Medium	AUB Auburn
BBM Bourbon Medium	BUT Butterscotch	ESP Espresso

## Bravado Conference Product Information

BRAVADO

## Bravado Conference Product Information

### Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Bravado product line. To attain a pleasing, symmetrical pattern, all cherry, maple and walnut veneers are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

#### Book-Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Bravado is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Bravado product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below shows the tight pattern used on Bravado. Use appropriate pricing column when specifying Double Cut veneer.

### Conference Top Construction

Cherry, Maple, Walnut Flat Cut Veneer

Table tops are 1 3/8" thick, 3-ply construction with matching external lumber edgeband on all sides and reverse bevel profile. Grain runs side to side (short grain).

#### Double Cut Veneer

Table tops are 1 3/8" thick, 3-ply construction with matching veneer edgeband on all sides and reverse bevel profile. Grain runs side to side (short grain).

Optional metal inlay is 1/8" wide and has a minimal (3/32") rise above the top surface.

### Conference Base and Stretcher Construction

Table bases feature 3/4" thick 3-ply panels and an aluminum extrusion corner detail. Bases are constructed using mortise and tenon joinery, along with wood cleats and screws. Each base includes adjustable leveling glides. Stretcher panels between bases provide additional support. Stretcher are 1 3/16" thick hardwood.

### Credenza and Media Unit Construction

Tops and chassis components are 3/4" thick 3-ply construction. Panels are joined together using mortise and tenon construction reinforced with wood cleats, metal brackets and screws. Cabinet legs are metal and have adjustable leveling glides. Credenza and media cabinet doors have 110 degree hinges to allow adequate access into the interior of the cabinet. Media wall mounted cabinets use piano-style hinges to allow door to swing open fully.

### Drawers

Drawer sides and backs are solid lumber beech 7/16" thick. Drawer fronts are 3-ply construction, 3/4" thick. Drawer bottoms are of 3-ply hardwood construction. Drawers are assembled with dovetail construction in all four corners of the drawer box. Fronts are securely mounted onto the drawer box. Drawer pulls are standard on pedestals. There are two finish options available Matte Black and Anodized Aluminum.

### Drawer Suspension

High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

### Locking

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

## Bravado Conference Product Information

### Finish - Stain/Colors

We offer a variety of wood stains on Bravado. Please see the chart below. Samples are available upon request.

#### CH1 Cherry *Flat Cut Veneer*

BRL Barley	EAR Earthy

FOS Fossil	STU Studio Teak

### Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

### DuraTex™ Features

**Safety** - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe. **Quality** - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood. **Durability** - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

### Product Modifications

#### Special Finishes

Special finishes can be requested by following the instruction in the general introduction section, page 5. There is a one time charge of \$332 list per order.

#### Species Change

For species changes contact customer service for a quote.

## Optional Metal Inlay

Bravado offers an optional 1/8" w metal inlay available in Arctic Silver (ASL) or Matte Black (MBK), see models for pricing.

## Bravado Conference Product Information

### Bases

Panel bases are 7" wide in 18", 24" and 30" depths. Square bases are available in 18", 24" and 30" sizes. All are 28 1/4" high.

Metal trim on all base corners must be specified in either Arctic Silver (ASL) or Matte Black (MBK).

Leveling glides are set into hardwood blocks, which helps to prevent the leveling glide from tear outs.

Access cut-out is 1 7/8" x 3 1/4".

**Panel Base**

**Square Base**

### Access Door

Bases can be specified with an optional access door; add \$249 list per base. Option must be specified when placing order. For View tables indicate which base or bases (A-E) are to have the access door on your order. See below diagram(s).

Note: Access door is non-handed.

**Panel Base with Access Door**

**Square Base with Access Door**

## Brogan Modular Product Information

### Brogan Modular / Brogan Freestanding

Brogan Modular units are not designed to be attached to models from Brogan, such as desks, bridges, return, credenzas and shells. They are two separate series.

### Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Brogan product line. To attain a pleasing, symmetrical pattern, all veneers in Brogan are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Brogan is available in flat cut cherry and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Cherry and Walnut veneer species are available on the  quickship program on select models.

### Work Surface Construction

Tops are 5-ply balanced construction, 1 3/8" thick with solid matching hardwood edges.

Coordinating high pressure laminate in a veneer grain pattern can be applied to the top surface and is available at no additional charge.

Modular Desks, Credenzas, Corner, Returns & Bridges units feature metal threaded inserts in the underside of the top for quick mounting and reconfiguration of modular storage components.

### Case Construction

All construction is a combination of full mortise and tenon, reinforced with screws. Leveling glides are set in solid hardwood to prevent glides tear out.

Outside End Panels are 1 3/8" thick with 3-ply construction and rimmed with veneer bands.

Pedestals are mortise and tenon construction reinforced with screws for increased stability. All modular storage units feature full top panels with holes for mounting to shell inserts.

### Drawer Construction

Drawers are assembled using four corner, dovetailed box and 1/4" thick drawer bottom panel construction with exterior front attached separately. Sides and backs are 9-ply, 7/8" thick unidirectional hardwood. Interiors are sanded and finished with clear catalyzed varnish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.

### Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. All drawers, including file and box drawers, fully extend past the pedestal chassis allowing full access to the drawer box.

### Filing Hardware

All file drawers are constructed with a custom designed filing system in place to allow for hanging folders.

### Locking

All storage pedestals and cabinets feature front pedestal locking.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

## Brogan Modular Product Information

### Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Brogan. Please see the chart below. Samples are available upon request.

<b>CH1 Cherry</b>	<i>Flat Cut Veneer</i>		
BRL Barley		EAR Earthy	
BBM Bourbon Medium		HRV Harvest*	
BRM Brighton Medium		LGC Legacy	
CLA Classic		PRL Praline*	
CLL Collectors*		SAF Saffron	

<b>WA1 Walnut</b>	<i>Flat Cut Veneer</i>		
AUB Auburn		SIE Sienna*	
ESP Espresso		TOF Toffee	
MCH Mocha*		TRF Truffle*	
NTO Night Owl*			

\*finishes with coordinating laminate tops.

### Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

### DuraTex™ Features

**Safety** - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the of the indoor air we breathe.  
**Quality** - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.  
**Durability** - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

### Product Modification

#### Laminate Tops

Work surface only, no additional upcharge if Brogan's coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Walnut Finishes
Collectors	Mocha
Harvest	Night Owl
Praline	Sienna
	Truffle

### Special Finishes

Special finishes can be requested by following the instruction in the general introduction section, page 5. There is a one time charge of \$332 list per order.

### Special Veneer

Upon request standard veneer can be changed to a special veneer contact Customer Service for availability and pricing.

### Product Modification

#### Trim Molding

Angled Trim molding is standard on all Brogan products.

Without molding or Scalloped Trim molding can be specified at the time of order placement.

**Angled Trim**  
standard

**Base Molding Only** (without trim)  
optional at no charge

**Scalloped Trim**  
optional with upcharge to list for each item  
 \$130 for all desk shells  
 \$67 for all other product with standard trim molding

## Brogan Modular Product Information

### Edge and Hardware

Brogan offers a traditional edge profile and two drawer pulls. Hardware is available in antique brass or antique pewter.

#### Edge Profile

**Brogan Edge Profile**  
Accepts Laminate Top

#### Drawer Hardware

**Brogan Hardware**  
Antique Brass (ANB)  
Antique Pewter (ANP)

**Gala Hardware**  
Antique Brass (ANB)  
Antique Pewter (ANP)

### Worksurface Grommets

Worksurface grommets are standard on all modular shells. Additional worksurface grommets can be specified in different location on veneer/laminate work-surfaces. The grommet location must be approved by JSI manufacturing, contact Customer Service.

Add \$99 to the list for each additional grommet.

Models with an Antique Brass pull will receive an Antique Brass grommet, those with an Antique Pewter pull will receive a Black grommet.

Antique Brass  
Black

### 3-Piece Leather Inlay

Brogan Modular can be enhanced with a 3-Piece Leather Inlay, which may be added to the worksurface on the modular desk shells for a \$2,225 list price upcharge.

Models  
BG3672MD  
BG3066MD

**Cortina Leather Options**  
Caprone  
Old English

Leather Inlay is limited to specific style and thickness of leather.  
Call Customer Service for more information.  
Visit [jsifurniture.com](http://jsifurniture.com) for leather colors.

## Brogan Product Information

### Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Brogan product line. To attain a pleasing, symmetrical pattern, all veneers in Brogan are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Brogan is available in flat cut cherry and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Cherry and Walnut veneer species are available on the **NOW!** quickship program on select models.

### Work Surface Construction

Tops are 5-ply balanced construction, 1 3/16" thick with solid matching hardwood edges.

Coordinating high pressure laminate in a veneer grain pattern can be applied to the top surface and is available at no additional charge.

### Case Construction

All construction is a combination of full mortise and tenon, reinforced with screws. Leveling glides are set in solid hardwood to prevent glides tear out.

Outside End Panels are 1 3/16" thick with 3-ply construction and rimmed with veneer bands.

### Drawer Construction

Drawers are assembled using four corner, dovetailed box and 1/4" thick drawer bottom panel construction with exterior front attached separately. Sides and backs are 9-ply, 7/16" thick unidirectional hardwood. Interiors are sanded and finished with clear catalyzed varnish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.

### Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. All drawers, including file and box drawers, fully extend past the pedestal chassis allowing full access to the drawer box.

### Filing Hardware

All file drawers are constructed with a custom designed filing system in place to allow for hanging folders. Filing diagram on pages 262-263.

### Locking

All desk, and lateral files feature central locking. Credenza and returns feature pedestal locking.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

### Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Brogan. Please see the chart below. Samples are available upon request.

NTO Night Owl*			

**\*finishes have coordinating laminate top**

### Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

### DuraTex™ Features

**Safety** - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the indoor air we breathe.

**Quality** - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

**Durability** - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

## Brogan Product Information

### Product Modification

#### Laminate Tops

Work surface only, no additional upcharge if Brogan's coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Walnut Finishes
Collectors	Mocha
Harvest	Night Owl
Praline	Sienna
	Truffle

#### Special Finishes

Special finishes can be requested by following the instruction in the general introduction section, page 5. There is a one time charge of \$332 list per order.

#### Special Veneer

Upon request standard veneer can be changed to a special veneer contact Customer Service for availability and pricing.

#### Pedestal Configuration Change

Writing shelf-tray-box-file drawer configuration standard on desk pedestals. Desk pedestal only can be switched out to a file-file configuration. Must be specified at the time of order with an additional \$178 list per pedestal.

Changing to a file-file pedestal configuration will eliminate the writing shelf (arm slide).

#### Desk Dictation Slide

The approach side of the desk in the center break front area has an option of a center pullout dictation slide. Add \$430 to the list price of the desk.

### Product Modification

#### Trim Molding

Angled Trim molding is standard on all Brogan products.

Without molding or Scalloped Trim molding can be specified at the time of order placement.

**Angled Trim**  
standard

**Base Molding Only** (without trim)  
optional at no charge

#### Scalloped Trim

optional with upcharge to list for each item

\$130 for all desk

\$67 for all other product with standard trim molding

## Brogan Product Information

BROGAN

### ERGO Adjustable Work Height Mechanism

Our proprietary adjustable work height mechanism can be specified on many of the models in Brogan.

ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge, or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button activates the electric powered lifting columns for adjustability from sitting height to a standing height. A  $\frac{3}{4}$ " thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that ERGO adds  $\frac{3}{4}$ " to the standard height of the desk and the installation will decrease kneespace depth by 8".

Automatic Collision Control is built into each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When ERGO is added to a desk worksurface in a "L" or "U" group, the unit that connects to the desk also needs to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the ERGO mechanism and the top. This is accomplished by adding a  $\frac{3}{4}$ " sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the ERGO mechanism.

Height adjustment starts at 30  $\frac{3}{4}$ ", to a standing height of 50  $\frac{1}{4}$ ", a range of 19  $\frac{1}{2}$ ".

To specify the unit that has the mechanism, add **ERGO** to the end of the model number.

To specify the connecting or adjacent units add, **ERGO ADJACENT** to the end of the model number.

**Note:** The kneespace depth is decreased when the ERGO mechanism is specified. Contact Customer Service for dimension information.

The Ergo mechanism and controls are warranted for a period of (1) year. The rest of the casegood unit(s) are warranted under the normal fifteen (15) year warranty.

Example

BG3672LD-ERGO	add \$4,223 to list
BG2448EB-ERGO ADJACENT	add \$542 to list
BG2472RC-ERGO ADJACENT	add \$635 to list

Example

### Connecting or Adjacent Units to Match Starting Height

All the units listed above can be specified as connecting or adjacent units. Other Brogan units could also be used as connecting units. Please contact Customer Service for additional items and pricing. When specifying, please add "ERGO ADJACENT" to the end of the model number.

Pricing for Standard Connecting or Adjacent Units

Tops larger than 24" x 48" add \$635 to the list price.

Tops 24" x 48" or smaller add \$542 to the list price.

# Brogan Product Information

## Edge and Hardware

Brogan offers a traditional edge profile and three drawer pulls. Hardware is available in antique brass or antique pewter.

### Edge Profile

**Brogan Edge Profile**  
Accepts Laminate Top

### Drawer Hardware

**Brogan Hardware**  
Antique Brass (ANB)  
Antique Pewter (ANP)

**Gala Hardware**  
Antique Brass (ANB)  
Antique Pewter (ANP)

**Gala Leather Wrapped Hardware**  
Antique Brass (ANB)  
Antique Pewter (ANP)

Optional matching leather wrapped pulls available for desk with leather inlay or other coordinating units. Specify leather wrapped pulls, add \$52 list upcharge per pull. Indicate Antique Brass (ANB) or Antique Pewter (ANP) pull.

## Worksurface Grommets

**Worksurface Grommet**  
Antique Brass (ANB)  
Black (BLK)

Worksurface grommets are standard on bridges, corner units, returns and the backs of overheads. Additional worksurface grommets can be specified on desks, credenzas, and other types of veneer/laminate worksurfaces. The grommet location must be approved by JSI manufacturing, contact Customer Service.

Add \$99 to the list for each additional grommet.

Models with an Antique Brass pull will receive an Antique Brass grommet, those with an Antique Pewter pull will receive a Black grommet.

## Brogan Conference Product Information

## Brogan Conference Product Information

### Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Brogan product line. To attain a pleasing, symmetrical pattern, all veneers in Brogan are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

#### Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Brogan is available in flat cut cherry and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Cherry and Walnut veneer species are available on the  quickship program on select models.

### Work Surface Construction

Tops are 5-ply balanced construction, 1 3/16" thick with solid matching hardwood edges. Tops are available in one edge profile.

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge.

### Base Construction

Panels are joined together by mortise and tenon construction. In addition to mortise and tenon joint construction. Leveling glides are set into solid hardwood with t-nut inserts, which helps to prevent the leveling glide from tear out. Tops are secured to the bases with top fastening cleats screwed to the inside of the panels.

### Drawers

The 9ply unidirectional hardwood sides of the drawer box are 7/16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is 1/4" thick fitting into a groove machined into the side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.

### Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension.

### Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Brogan. Please see the chart below. Samples are available upon request.

#### CH1 Cherry Flat Cut Veneer

BRL Barley	EAR Earthy
BBM Bourbon Medium	HRV Harvest*
BRM Brighton Medium	LGC Legacy
CLA Classic	PRL Praline*

#### WA1 Walnut Flat Cut Veneer

AUB Auburn	SIE Sienna*
ESP Espresso	TOF Toffee
MCH Mocha*	TRF Truffle*
NTO Night Owl*	

\*finishes have coordinating laminate top

### Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

### DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

## Brogan Conference Product Information

### Product Modification

#### Laminate Tops

Worksurface only, no additional upcharge if coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Walnut Finishes
Collectors	Mocha
Harvest	Night Owl
Praline	Sienna
	Truffle

#### Special Finishes

Special finishes can be requested by following the instruction in the general introduction section, page 5. There is a one time charge of \$332 list per order.

#### Species Change

For species changes contact customer service for a quote.

### Product Modification

#### Trim Molding

Angled Trim molding is standard on all Brogan products.

Without molding or Scalloped Trim molding can be specified at the time of order placement. *(diagram below show the molding options)*

**Angled Trim**  
standard

**Base Molding Only** (without trim)  
optional at no charge

**Scalloped Trim**  
optional with upcharge to list for each item  
\$60 list per base

## Collective Conference Tables Product Information

COLLECTIVE CONFERENCE

## Collective Conference Tables Product Information

### Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Collective Conference product line. To attain a pleasing, symmetrical pattern, all veneers in Collective Conference are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

#### Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Collective Conference is available in flat cut cherry, maple, and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Solid painted finishes on MDF are also offered on bases, drawer and door fronts to provide an accent to the Collective Conference product.

### Work Surface Construction

All tops are 1 3/8" thick with 3-ply construction and trimmed off with matching 1.5mm rims.

Tops are available in wood veneer, applied glass or laminate surfaces. No additional charges for laminate when selecting standard coordinating laminate as listed on the top of the next page.

### Chassis Construction

The chassis consists of cherry, maple or walnut book-matched veneer. Mortise and tenon construction. Adjustable leveling glides ensure proper leveling of unit.

### Extruded Aluminum Components

Telescopic Feet, Edge Trim Rails, Center Console Components, and Spacers all are made from an alloy aluminum compound, made up of 10% post consumer scrap, 60% post industrial scrap and 30% primary aluminum. The aluminum meets or exceeds the guidelines of USGBC - LEED V2.2. The parts are precisely machined and then processed in a clear anodized finish for a natural aluminum appearance.

### Fabricated or Casted Metal Components

Base Trims, Base Pans, Scones and Wire Pans are made up of high grade metals. The metal is laser cut, bent to shape and robotically welded to the exact specifications, polished and powder coated to blend with the anodized aluminum.

### Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Collective Conference. Please see the chart below. Samples are available upon request, through our website or by contacting Customer Service.

<b>CH1 Cherry</b>		<i>Flat Cut Veneer</i>

\*finishes with coordinating laminate tops.

### Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

### DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

# Collective Conference Tables Product Information

## Product Modification

### Laminate Tops

Work surface only, no additional upcharge if coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request.

### Special Finishes

Special finishes can be requested by following the instructions in the general introduction section, page 3. There is a one time charge of \$332 list per order.

### Special Top Sizes and Cabinets

Collective Conference offers a large offering of table tops shapes and sizes, along with the Collective Conference Storage products to create a perfect meeting room. Contact Customer Service if you are having trouble finding the right units to complete the desired configuration. Special sizes and cabinet variations need to be approved by JSI engineering.

## Collective Conference Tables Product Information

### Top Edge Profiles

Collective Conference offer two edges profiles, along with optional details.

#### Straight Edge - Veneer

Standard on conference tables and casegoods products.

#### Straight Edge - Laminate

Straight edge with laminate surface available for conference tables and casegood products. See page 307 for standard wood grain laminate.

#### Aluminum Trim Edge Detail

Aluminum trim edge available only on Veneer rectangular shape conference tops. The trim edge is finished in clear anodized finish.

#### Thin Profile Edge - Glass

Reverse Bevel edge is available with low iron white back painted glass in glossy or frosted surface. Available only on conference table tops.

### Base Types

Collective Conference offers five base styles: open cable, closed cable, rectangular, panel and arc end.

Open Cable Base

Closed Cable Base

Rectangular Base with Apron Rails

Panel Base with Apron Rails

Arc End Base with Apron Rails

### Foot/Plinth Style Base

Collective Conference Open Cable Base and Casegoods features an anodized aluminum foot. For a more classic feel, units may be specified with a wood plinth style base. Rectangular, Panel and Arc End Bases are available only with a plinth base.

#### Foot Style

Anodized Aluminum Finish

#### Plinth Base

Concealed leveling glide

### Foot Leveling Details

Telescopic cover can slide up to provide access for leveling adjustment

## Collective Conference Tables Product Information

### Conference Top Shapes and Sizes

Collective Conference offer six top shapes and sizes start at 216" in length. Note size 120" and above are two piece tops.

rectangular	arc end	racetrack	boat	ellipse	view
216" x 60" Seats 18/20 192" x 60" Seats 16/18 168" x 60" Seats 14/16 144" x 60" Seats 10/12 216" x 48" Seats 16/18 192" x 48" Seats 14/16 168" x 48" Seats 12/14 144" x 48" Seats 8/10 120" x 48" Seats 6/8 96" x 48" Seats 6/8 84" x 42" Seats 4/6 72" x 36" Seats 4/6	216" x 60" Seats 16/18 192" x 60" Seats 14/16 168" x 60" Seats 12/14 144" x 60" Seats 10/12 216" x 48" Seats 16/18 192" x 48" Seats 14/16 168" x 48" Seats 12/14 144" x 48" Seats 8/10 120" x 48" Seats 6/8 96" x 48" Seats 6/8 84" x 42" Seats 4/6 72" x 36" Seats 4/6	216" x 60" Seats 18/20 192" x 60" Seats 16/18 168" x 60" Seats 14/16 144" x 60" Seats 10/12 216" x 48" Seats 16/18 192" x 48" Seats 14/16 168" x 48" Seats 12/14 144" x 48" Seats 8/10 120" x 48" Seats 6/8 96" x 48" Seats 6/8 84" x 42" Seats 4/6 72" x 36" Seats 4/6	216" x 60" Seats 16/18 192" x 60" Seats 14/16 168" x 60" Seats 12/14 144" x 48" Seats 8/10 120" x 48" Seats 6/8 96" x 48" Seats 6/8	144" x 60" Seats 10/12 120" x 54" Seats 8/10 96" x 48" Seats 6/8	168" x 60" Seats 12/14 144" x 60" Seats 10/12 120" x 60" Seats 9/10 96" x 60" Seats 7/8  <i>This shape top is only available with bases</i>

### Open Cable Bases

The open cable base features a  $\frac{13}{16}$ " X-shaped stainless steel cable accent. Open cable bases provide no wire management compartment. The outer frame is wood with a metal inner frame in silver powder coat. Telescopic feet provide  $1\frac{1}{2}$ " leveling adjustment.

Configured tables with cable bases in this price list include support rails for the top.

Cable bases are not for use with 60"d tops. When specifying cable bases and tops separately, support rails may need to be included. Call Customer Service for more information.

### Closed Cable Bases

Outside Base  
side 1 (approach)

side 2

Closed cable bases include a hinged door compartment and plinth base for wire management.

The outside closed cable base features a visible  $\frac{13}{16}$ " X-shaped stainless steel cable accent on the side opposite the hinge door. Wires pass through an opening above hinged doors. The base is wood with a silver powder coated inner frame.

The middle closed cable base features a wood panel on the side opposite the side hinged door. Wires pass through an opening at the top of both sides.

Configured tables with cable bases in this price list include support rails for the top.

Cable bases are not for use with 60"d tops. When specifying cable bases and tops separately, support rails may need to be included. Call Customer Service for more information.

Middle Base  
side 1

side 2

## Collective Conference Tables Product Information

### Panel Bases

The panel base features slim wood pedestals surrounded by a wood accent. Each pedestal has a hinged door for wire management access and features a silver powder coat metal fin detail.

The panel base is standard with rectilinear end bases. Arc end bases may be specified as an option.

### Arc End Bases

*(an option to the panel base)*

### Rectangular Bases

The rectangular base features wide wood pedestals surrounded by a wood accent. Each pedestal has a hinged door for wire management access, an ample storage compartment, and features a silver powder coat metal fin detail.

## Collective Conference Tables Product Information

### Open Cable Base

The open cable base is available in veneer only.

Open Cable Base

a. outer frame - veneer only

### Closed Cable Base

There are two material options for the closed cable base. The outer frame and plinth are always veneer. The inner panel/door can be specified in the matching veneer or in a contrasting paint.

a. outer frame/plinth - veneer

b. inner panel/door - veneer

a. outer frame/plinth - veneer

b. inner panel/door - paint

(see page 306 for finish choices)

plinth style base only (veneer and finish matches outer frame)

inner panel/doors (b) - paint or veneer

☐ veneer (veneer and finish matches outer frame)

☐ paint

color - inner panel/doors (b) \_\_\_\_\_

(see page 306 for paint choices)

metal frame / cable - arctic silver (standard)

# Collective Conference Tables Product Information

## Panel and Rectangular Base Material Options

There are four finish schemes available for the panel (flat or arc) and rectangular bases.

### Table Base - Panel Style Parts

- a. accent panel and middle trim
- b. base cabinet
- c. apron
- d. metal trim fin

### Table Base - Rectangular Style Parts

- a. accent surround and middle trim
- b. base cabinet
- c. apron
- d. metal trim fin

## Finish Schemes

### Scheme 1 - all veneer

- a. accent panel or surround - veneer
- b. base pedestal - veneer
- c. apron (shown below) - veneer

### Scheme 2 - all paint

- a. accent panel or surround - paint
- b. base pedestal - paint
- c. apron (shown below) - paint

### Scheme 3 - veneer and paint

- a. accent panel or surround - paint
- b. base pedestal - veneer
- c. apron (shown below) - veneer

### Scheme 4 - paint and veneer

- a. accent panel or surround - veneer
- b. base pedestal - paint
- c. apron (shown below) - paint

## Table Base Ordering Worksheet

part a - veneer or paint choice

(choose one)

- ☐ cherry
- ☐ maple

- ☐ walnut
- ☐ paint (MDF board)

finish or paint color - see page 306 for finish and paint choices) (part a) \_\_\_\_\_

part b & c- veneer or paint choice

(choose one)

- ☐ cherry
- ☐ maple

- ☐ walnut
- ☐ paint (MDF board)

finish or paint color - see page 306 for finish and paint choices) (part b) \_\_\_\_\_

part d - metal fin trim - arctic silver (standard)

## Collective Conference Tables Product Information

### Round Meeting Tables and Bases

Collective Conference offers three styles of round meeting tables in several diameter sizes.

#### Glass Top with Column Disc Base

Available Tables - 48" dia - 42" dia - 36" dia (seats 3 to 4)

- a Top - ½" glass - frosted glass - acid etch underside
- b Base - 26" dia - cast aluminum - arctic silver powder coat
- c Column - veneer  
cherry, maple, and walnut - (*choice of one*)
- d Spider Armature - glass puck (ultra-violet glue attachment) - arctic silver powder coat

#### Veneer Top with Column Disc Base

Available Tables - 48" dia - 42" dia - 36" dia - 30" dia (seats 3 to 4)

- a Top - 1½" veneer top (*laminated surface available see page 307*) -
- b Base - 26" dia - cast aluminum - arctic silver powder coat
- c Column - veneer  
cherry, maple, and walnut - (*choice of one*)

#### Veneer Top with Cylinder Base

Available Tables - 48" dia - 42" dia (seats 3 to 4)

- a Top - 1½" veneer top (*laminated surface available see page 307*)
- b Cylinder Base - 24" dia - drum style construction
- c Accent Panel - veneer (*choice of one*)  
cherry, maple and walnut  
paint - (*see page 306 for color choices*)

## Collective Conference Tables Product Information

### Center Console Overview

The continuous center console supports a variety of functional and aesthetic options. A Collective Conference table with center console includes: the center spine assembly which houses 4", 8", 12" and 16" modules, ordered separately, the understructure of the console, and wire management tray as illustrated below.

#### 1 Center Spine Bezel Assembly

The center spine bezel assembly accepts the 4", 8", 12" and 16" modules shown on pages 315, 390-391 of the pricing section of this price list.

#### 2 Table Top

Tops are available in several shapes including rectangular, racetrack, ellipse, arc end, boat and view. They come with or without center console.

#### 3 Center Spine Structural Extrusion Assembly

When a table with center console is specified, the center spine structural extrusion assembly is attached to the underside of the table top.

#### 4 Wire Management Tray

When using power/data and lamp modules, the wire management tray channels the cords to the panel or rectangular bases.

## Collective Conference Tables Product Information

### Center Console Components

Collective Conference is available with a center console for storage, power/data and accessories. The center console is offered in lengths of: 48", 72", 96", 120", 144" & 160". The accessories are offered in 4" increments. When designing your center console the accessories selected must equal the length of your console. The center console is factory installed.

**You must specify the order in which you want the accessories to appear using the chart on the bottom of the page.**

### Center Console Worksheet - Order Sheet

**A** Use the following chart to determine the console length.

Table Length	Console Length
216"	160"
192"	144"
168"	120"
144"	96"
120"	72"
96"	48"

**B** List out the order in which you want the accessories to appear in the console.

Console Length \_\_\_\_\_

Item	Length	Item	Length
1. _____	_____	11. _____	_____
2. _____	_____	12. _____	_____
3. _____	_____	13. _____	_____
4. _____	_____	14. _____	_____
5. _____	_____	15. _____	_____
6. _____	_____	16. _____	_____
7. _____	_____	17. _____	_____
8. _____	_____	18. _____	_____
9. _____	_____	19. _____	_____
10. _____	_____	20. _____	_____

\*Total length of accessory items must equal total length of console. \_\_\_\_\_

### Order Check List:

Specify:

- ☐ 1. Model Number
- ☐ 2. Finish Scheme/Color (see pages 311-313)
- ☐ 3. Wood Species - cherry - maple - walnut
- ☐ 4. Top Options - standard veneer - laminate surface (see page 306) - back painted white glass (glossy or frosted surface)
- ☐ 5. Aluminum Trim (rectangular tops only) - **if applicable**
- ☐ 6. Console Insert Accessories - **if applicable - order items separately**
- ☐ 7. Other Product Options
- ☐ 8. Power and Data Accessories (*drawing showing location and orientation must accompany order*)
- ☐ 9. Side Mark Information (*i.e. room number, East Conference Room*)
- ☐ 10. Shipping Address (*contact name and phone number*)
- ☐ 11. Special Delivery Instructions (*i.e. call before delivery, deliver to job site*)

## Collective Conference Storage Product Information

COLLECTIVE CONFERENCE

## Collective Conference Storage Product Information

### Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Collective Conference Storage product line. To attain a pleasing, symmetrical pattern, all veneers in Collective Conference Storage are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

#### Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book

Collective Conference Storage is available in flat cut cherry, maple, and walnut veneer.

Solid painted finishes on MDF are also offered on drawer and door fronts to provide an accent to the Collective Conference Storage product.

### Work Surface Construction

Tops are 3-ply balanced construction, 1½" thick with solid matching hardwood 1.5mm rims.

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge for some finishes.

### Case Construction

Outside panels are 1¾" and joined together by mortise and tenon construction. In addition to mortise and tenon joint construction, pedestal joints are reinforced with screws, cleats, brackets and glue. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Cabinet doors have 110° swing hinges to allow adequate access into the interior of the cabinet.

Leveling glides are provided in both plinth base or telescopic foot.

### Extruded Aluminum Components

Telescopic Feet, Valance Rails, Tool Rails, and Spacers all are made from an alloy aluminum compound, made up of 10% post consumer scrap, 60% post industrial scrap and 30% primary aluminum. The aluminum meets or exceeds the guidelines of USGBC - LEED V2.2. The parts are precisely machined and then processed in a clear anodized finish for a natural aluminum appearance.

### Fabricated or Casted Metal Components

The metal is laser cut, bended and robotically welded to the exact specifications, polished and powder coated to blend with the anodized aluminum.

### Access Kneespace Panel

Wall stud construction style frame is made from 16-gauge steel, stamped and laser cut. Pop-rivets are used to combine frames and create various widths. Frames are coated with silver powder coat. The back is open and is designed to sit up against a wall, to allow for wiring access.

### Aluminum Glass Doors

Aluminum glass doors and modesty panels have extruded aluminum frames with 4mm thick with three glass options: frosted with acid etch front, frosted low iron white back painted glass (matte) and glossy low iron white back painted glass (shiny).

### Drawer Box Construction

The 9ply unidirectional hardwood sides of the drawer box are 7/16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is ¼" thick fitting into a groove machined into the side of the box. Interiors are sanded and coated with a clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.

### Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

## Collective Conference Storage Product Information

### Locking

Credenzas feature door locking option to provide maximum security and flexibility.

Units are shipped randomly keyed as standard (units tagged in the grouping are keyed alike). Keyed alike units are available if requested at no upcharge. Removable cores for in-field re-keying are standard.

### Finish - Stain/Colors

We offer a wide variety of wood stains and paint colors on the Collective Conference Storage. Please see the chart below. Samples are available upon request, through our website or by contacting Customer Service.

FRR French Roast	

\*finishes with coordinating laminate tops.

### Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

### DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

### Product Modification

#### Laminate Tops

Work surface only, no additional upcharge if Collective's coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request.

#### Cherry Finishes Maple Finishes Walnut Finishes

### Foot Leveling Details

Telescopic cover can slide up to provide access for adjustment

## Collective Conference Storage Product Information

### Wall Options

Collective Conference Storage addresses today's information and presentation environments. Collective Conference Storage consists of modular components, Media Walls to build various technology applications. Walls require specification of left and right end panels or towers, and a center wall panel to complete a configuration.

Media Wall

### Media Wall Components

The Media Wall supports technology applications to support large screen viewing and interactive video conferencing. The Media Wall creates 86" and 71" heights and includes a center wall panel, technology niche storage with back panel, technology credenza, end towers, glass and wood tops. Panels and towers are always wall mounted.

Media Wall with Technology Credenza  
(Front View)

## Collective Conference Storage Product Information

### Access Panel Wiring

The access panel consist of two hinged panels with a lid stay mechanism on upper panel. The panel allows access to building power and communication and features concealed lay-in cable channel, and optional modular power distribution system.

### Installation of the Data Adapter Kit & Base Plate

1. Select the appropriate adapter.
2. Snap jack into adapter following the instructions provided with the jack.
3. Once assembled, snap adapter into the notched, square holes in the orientation shown.
4. If provided, snap adapter into any  $1\frac{3}{8}$ " x  $2\frac{3}{4}$ " opening.

Note: Verify fit of jack in adapter before ordering large quantities as manufacturer designs may change without notice.

**A** Adapter is included with product.

**B** Coupler/Jack is ordered separately and should be installed by electrician.

## Collective Conference Storage Product Information

### Material Options and Finish Schemes

Collective Conference Storage uses a mix of materials: paint, veneer, and aluminum. Veneer choices are cherry, maple, and walnut. Eleven paint colors are available; see page 395. Wood worksurface tops or rims on laminate worksurface top, are available in veneer finishes only.

## Finale Product Information

### Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Finale product line. To attain a pleasing, symmetrical pattern, all veneers in Finale are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

#### Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book

Finale is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Cherry veneer is the only veneer species available on the **NOW!** quickship program on select models.

### Work Surface Construction

Tops are 5-ply balanced construction, 1 3/8" thick with solid matching hardwood edges. Surfaces are available in wood veneer or high pressure laminate. No additional charge for using our coordinating high pressure laminate with a veneer grain pattern.

### Case Construction

Outside panels are 1 3/8" and joined together by mortise and tenon construction. In addition to mortise and tenon joint construction, pedestal joints are reinforced with screws, cleats, brackets and glue. Leveling glides are set into solid hardwood blocks with t-nut inserts, which helps to prevent the leveling glide from tear out. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Cabinet doors have 110° swing hinges to allow adequate access into the interior of the cabinet.

### Drawers

The 9ply unidirectional hardwood sides of the drawer box are 7/8" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is 1/4" thick fitting into a groove machined the into side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.

### Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in /out stops. File and box drawers have 100% full extension with over travel.

### Filing Hardware

All file drawers are constructed with a custom designed filing system in place to allow for hanging folders. Filing diagram on pages 437-439.

### Locking

All desks, credenzas and returns feature pedestal locking and lateral files feature central locking to provide maximum security and flexibility.

Units are shipped randomly keyed as standard (units in the grouping are keyed alike). Keyed alike units available if requested at no upcharge. Removable cores for in-field re-keying are standard.

### Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Finale. Please see the chart below. Samples are available upon request.

<b>CH1 Cherry</b>	<i>Flat Cut Veneer</i>
BRL Barley	EAR Earthy
BBM Bourbon Medium	HRV Harvest*
BRM Brighton Medium	LGC Legacy
CLA Classic	PRL Praline*
CLL Collectors*	SAF Saffron

<b>MA1 Maple</b>	<i>Flat Cut Veneer</i>
ALM Ale Medium	FLX Flax
BUT Butterscotch	VEN Venetian
CIN Cinnamon	

<b>WA1 Walnut</b>	<i>Flat Cut Veneer</i>
AUB Auburn	SIE Sienna
ESP Espresso	TOF Toffee
MCH Mocha	TRF Truffle
NTO Night Owl	

\*finishes with coordinating laminate tops.

### Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

### DuraTex™ Features

**Safety** - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe.

**Quality** - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

**Durability** - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

# Finale Product Information

## Product Modification

### Laminate Tops

Worksurface only, no additional upcharge if coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Maple Finishes	Walnut Finishes
Barley	Ale Light	Auburn
Bourbon Light	Cinnamon	Mocha
Brighton Light	Venetian	Night Owl
Classic		Sienna
Collectors		Toffee
Harvest		Truffle
Legacy		
Praline		
Saffron		

### Special Finishes

Special finishes can be requested by following the instruction in the general introduction section, page 5. There is a one time charge of \$321 list per order.

### Species Change

For species changes contact customer service for a quote.

### Pedestal Configuration Change

Box-box-file configuration is standard on all desks and file-file configuration is standard on all return units.

Finale drawer configuration on pedestals 27" to 30" high can be switched out either to a box-box-file or file-file configuration, but must be specified at the time of order with an additional \$162 list per pedestal.

### Writing Shelf - Pullout (Arm Slide)

Desk Pedestals in Finale can have an optional pullout shelf above the top drawer for additional writing surface. Add \$301 to the list for each pedestal.

## Special Sizes from Standard Offering

The following chart contains pricing for general modifications to Finale.

**All modifications still must be approved by JSI manufacturing.** please contact Customer Service to verify any of the modifications listed in the chart below. More complex modification to standard product may be possible, please refer to page 5 for additional details.

**This chart does not apply to glass doors, glass tops or to metal components; such as modesty trims panels, and structural support. Any changes to file drawers will affect filing capabilities.**

**Increasing Dimensions** - Add On to the list Per 6" Occurrence

<b>Overhead</b>	
Increasing width	\$829
Increasing depth	\$1,415
Increasing width with doors	\$982
Increasing depth with doors	\$1,514

### Any Pedestal

Increasing width	\$1,177
Increasing depth	\$1,050

### Any Panel

Increasing width	\$268
------------------	-------

### Any Top

Increasing width	\$349
Increasing depth	\$493

**Decreasing Dimensions** Add On to the list Per 6" Occurrence

<b>Overhead</b>	
Decreasing width	\$253
Decreasing depth	\$253
Decreasing width with doors	\$346
Decreasing depth with doors	\$346

### Any Pedestal

Decreasing width	\$1,094
Decreasing depth	\$977

### Any Panel

Decreasing width	\$129
------------------	-------

### Any Top

Decreasing width	\$190
Decreasing depth	\$190

### Example 1

Increasing open corner credenza width by 11", from 72" to 83".

Add Top Width (\$349 × 2) [\$349 for each 6" increment]

Add Panel Width (\$268 × 2) [\$268 for each 6" increment]

Total Modification = \$1,234

### Example 2

Increasing a desk pedestal depth from 36" to 40" & increase the width of the same pedestal by 8"

Add Pedestal Depth \$1,050

Add Pedestal Width (\$1,177 × 2) [\$1,177 for each 6" increment]

Total Modification = \$3,404

### Example 3

Decreasing an overhead from 60" to 58" width & increasing the depth by 3"

Decrease Overhead Width \$253

Add Overhead Depth \$1,415

Total Modification = \$1,668

## Finale Product Information

### ERGO Adjustable Work Height Mechanism

Our proprietary adjustable work height mechanism can be specified on many of the models in Finale.

ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button activates the electric powered lifting columns for adjustability from sitting height to a standing height. A  $\frac{3}{4}$ " thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that ERGO adds  $\frac{3}{4}$ " to the standard height of the desk and the installation will decrease kneespace depth by 8".

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When ERGO is added to a worksurface in an "L" or "U" group, all units in the configuration need to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the ERGO mechanism and the top. This is accomplished by adding a  $\frac{3}{4}$ " sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the ERGO mechanism.

Height adjustment starts at 30  $\frac{1}{4}$ ", to a standing height of 49  $\frac{3}{4}$ ", a range of 19  $\frac{1}{2}$ ".

**Note:** The kneespace depth is decreased when the ERGO mechanism is specified. Contact Customer Service for dimension information.

The Ergo mechanism and controls are warranted for a period of (1) year. The rest of the casegood unit(s) are warranted under the normal fifteen (15) year warranty.

Example

FN3672LD (with ERGO option)	add \$4,223 to list
FN2448EB (with ERGO ADJACENT option)	add \$542 to list
FN2472RC (with ERGO ADJACENT option)	add \$635 to list

Example

FN3672LD (with ERGO ADJACENT option)	add \$635 to list
FN2448EB (with ERGO option)	add \$4,223 to list
FN2472RC (with ERGO ADJACENT option)	add \$635 to list

Example

FN3672LD (with ERGO ADJACENT option)	add \$635 to list
FN2448EB (with ERGO ADJACENT option)	add \$542 to list
FN2472RC (with ERGO option)	add \$4,223 to list

Example

FN3672LD (with ERGO option)	add \$4,223 to list
FN2448EB (with ERGO ADJACENT option)	add \$542 to list
FN2472RC (with ERGO ADJACENT option)	add \$635 to list
FN2472LFC (with ERGO ADJACENT option)	add \$635 to list

## Finale Product Information

### Availability of Finale Units with the Mechanism

The following models are available with the ERGO Adjustable Work Height Mechanism.

**Freestanding Units** - Units below do not require adjacent products; select ERGO option and add \$4,223 to the list price.

<u>Double Pedestal Desk</u>	<u>Credenzas</u>
FN4272BD	FN2472KC
FN3672DD	FN2466KC
FN3072DD	
FN3066DD	
FN3060DD	

**Adjacent Connecting Units** - Select ERGO option for the model you wish to have height adjustment and add \$4,223 to the list price. For units, from this list, that are connecting to the ERGO model, you must select ERGO ADJACENT on each of these connecting models and add \$635 list to each model. \*If the connecting model is 24"x 48" or less, add \$542 list.

<u>Single Pedestal Desk</u>	<u>Returns</u>	<u>Bridges</u>	<u>Credenzas</u>	<u>Corner Units</u>

## Finale Product Information

### Layouts

Two heights of storage overheads are available in Finale.

Finale is an easily specified contemporary product line, with standard office furniture sizes.

**Easily specified and setup while providing well established layouts in the office environment.**

- 1 Single Pedestal Desk**, with the standard box, box, file pedestal configuration and side locking. Standard side grommet keeps the desk top clean from wires, while still having convenient wire management.
- 2 Bridge** standard with top and back panel grommet and mounting hardware.
- 3 Lateral File Credenza** available with fixed back panel.
- 4a Cabinet Top** is a standard feature on 42" high overhead cabinets.
- 4b Modular Cabinet Top** (*not shown in diagram*) is an option on 54" high overhead cabinet. These tops are ordered separately.
- 5a Overhead Cabinet** height is 42" for an overall height 72"  
Standard with left and right grommets on the back panel. Models are available with frameless glass doors in white back painted. (*Locks and pulls are not available with glass doors*). Models with installed cubbies are also available.
- 5b Overhead Cabinet** height is 54" for an overall height 84"  
(*add 1 3/16" if specifying modular cabinet tops*). Standard with left and right grommets on the back panel. Shown with frameless white back painted glass doors. (*Locks and pulls are not available with glass doors*) Models are also available in wood doors.

**Note:** Tackboard or panels can be ordered for the inside back of the overhead cabinet, along with the accessory rails.

### Modular Cabinet Tops

Overhead Cabinets 54" tall do not come with modular cabinet tops. Tops can be specified and ordered separately. To maintain the same finish height on all units, specify tops for **ALL** adjacent units.

Frameless opaque glass doors in white back painted brings a nice aesthetic to the Finale product line.

## Finale Conference Product Information

# Finale Conference Product Information

## Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Finale product line. To attain a pleasing, symmetrical pattern, all veneers in Finale are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

### Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Finale is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Solid painted finishes on the veneer are also offered to provide an accent to the Finale product.

Cherry veneer is the only veneer species available on the  quickship program on select models.

## Work Surface Construction

Tops are 5-ply balanced construction, 1 3/16" thick with solid matching hardwood edges. Tops are available in six edge profile.

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge.

## Base Construction

Panels are joined together by mortise and tenon construction. In addition to mortise and tenon joint construction. Leveling glides are set into solid hardwood with t-nut inserts, which helps to prevent the leveling glide from tear out. Tops are secured to the bases with top fastening cleats screwed to the inside of the panels.

## Drawers

The 9ply unidirectional hardwood sides of the drawer box are 7/16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is 1/4" thick fitting into a groove machined into the side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.

## Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

## Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Finale. Please see the chart below. Samples are available upon request.

<b>CH1 Cherry</b>		<i>Flat Cut Veneer</i>	
BRL	Barley	EAR	Earthy

NTO	Night Owl		

## Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

## DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

## Finale Conference Product Information

### Product Modification

#### Laminate Tops

Worksurface only, no additional upcharge if coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Walnut Finishes
<i>Collectors</i>	<i>Mocha</i>
<i>Harvest</i>	<i>Night Owl</i>
<i>Praline</i>	<i>Sienna</i>
	<i>Truffle</i>

#### Special Finishes

Special finishes can be requested by following the instruction in the general introduction section, page 5. There is a one time charge of \$332 list per order.

#### Species Change

For species changes contact customer service for a quote.

\*requires 1 base

\* When ordering bases for 120" x 48" and 120" x 42" size tops, three (3) bases are required for Panel and Rectangle bases, two (2) bases are required for all other.

## Base (units with access panel in the base for wire management are available, order this feature with the appropriate model number.)

panel base  
30" and 24" width

rectangle base  
30" and 24" width

square base  
24" and 18" width

cross base  
24" and 18" width

round base  
24", 20" and 18" dia.

half-round base  
24", 20" and 18" dia.

## Worksurface Grommet

Additional worksurface grommets can be specified on veneer/laminate worksurfaces. The grommet location must be approved by JSI manufacturing, contact Customer Service. Add \$99 to the list for each additional grommet.

Grommet color must be specified, select Matte Black or Stardust Silver. Lock cores will match grommet color Matte Black (MBK) or Stardust Silver (STS).

## End/Back Panel Grommet

The end/back panel grommets are standard, for any special consideration contact Customer Service.

## Finale Conference Product Information

### Order Check List:

- Specify:
- ☐ 1. Model Number
  - ☐ 2. Finish
  - ☐ 3. Wood Species - cherry - makore - maple - walnut
  - ☐ 4. Top Options - standard veneer - laminate surface (see page 503)
  - ☐ 5. Other Product Options
  - ☐ 6. Power and Data Accessories (*drawing showing location and orientation must accompany order*)
  - ☐ 7. Side Mark Information (*i.e. room number, East Conference Room*)
  - ☐ 8. Shipping Address (*contact name and phone number*)
  - ☐ 9. Special Delivery Instructions (*i.e. call before delivery, deliver to job site*)

To Order, Specify:

① Model number

## Standard Power and Data Locations for Casegoods:

- Specify - Location when ordering on desk, return, computer corner, bridge and credenza - please provide drawing.
- Computer corner units - power/data replaces grommet.
- Standard power and data unit locations are indicated from user side of desk, return, computer corner bridge or credenza.

**NOTE:** Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice

## Standard Power and Data Locations for Tables and Conference Units:

- Verify fit of jack in adapter before ordering large quantities as manufacturer designs may change without notice.
- Installation of Power and Data units on a seam of multi piece tops should be avoided when possible.
- Specify location when ordering conference tops or buffet credenza.
- Standard power and data units are indicated from the side of conference tops and user side of buffet credenza.

## Data Adapter Applications

Data adapter kits ship with each power and data unit.

Adapter plates are marked on the back with letter designators to indicate the data jack manufacturer, series and style. Websites are listed below for quick reference to verify data jack series or style.

Included with EC9, EC10,  
EC13, EC15, TCP110 and CC9CNE1-0708.

**NOTE:** Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice.

## Conference

### Flat Screen Mount - Universal Bracket (standard with TV, DTV and FSTV model)

Peerless® ST650 universal tilting flat screen mount is supplied with the FSTV Flat Screen Mounting Frame.

- For use with 32"-50" screens
- Maximum weight 175 lbs. (79kg)
- Tilt 15° forward and -5° backward angles
- Mounting pattern allows up to 6" of vertical adjustment

NOTE: To verify TV interface to universal bracket

1. Access website - [www.peerlessmounts.com](http://www.peerlessmounts.com)
2. Locate "Mount Finder™" on home page side navigation bar
3. Enter make and/or model of your flat screen
4. Verify model: ST650 is listed as available model
