Foot Options

Moto offers two foot styles or casters. The metal foot is standard on seating, casegoods and linking drum tables. An optional wood foot is available at an additional upcharge on lounge, linking drum tables and casegoods. Casters are available on seating with an additional upcharge. Casters are non-locking.

Metal Foot - Standard

Casters - Optional
Black Dual Wheel
Four Caster Set
Non-locking

Adjustable Foot - Leveling

The standard foot has integrated leveling, which is beneficial when connecting units together in long runs on uneven floors. As the glide is turned to adjust leveling an attached shroud drops to hide the threads of the bolt.

The maximum recommended adjustment is no more than 1 3/4".

Upholstery Application

The fabric will be applied "up the roll" unless railroad is specified.

The Concave Corner unit will have a diagonal seam on all fabric applications. Shown below is an example of a directional textile on the Corner Club unit.

Additional seaming may be needed pending fabric width and fabric repeat match, contact Customer Service with questions. JSI will strive to match fabric patterns but cannot guarantee a match on repeats greater than 15" on the Moto product line.

Modular Lounge and Linking Drum Tables

An Alligator Clip assembly is installed to connect lounge and linking drum tables. The clip is installed on the left bottom side rail and the hook is installed on the right bottom side rail. The bottom chair rails are bored to accept either the clip or hook for field re-configurations.

Note: Linking Table Tops are permanent bolt thru attachment and do not use the above clip.

Lounge Seating - Seam Detail

Seats have a seam detail in the center of the seat. This seam detail is standard and will help keep the tailored look of Moto. Please note that fabrics and leathers are all different (fiber content, yarn elasticity and yarn weight) which can affect the tailoring of the Moto Lounge. The aesthetic seam helps with variations in the upholstery cover. Contact Customer Service with fabric and leather information if a concern exists with a certain upholstery cover.

Linking Tables - Grain Direction

Linking Drum Tables - Power Location

The EC24 or EC23 are available on linking drum tables. Wire management moves through the bottom cavity. The location shown below is for all table shapes.

Work Tables - Power and Wire Management

The optional EC23 or EC24 is recommended for the work tables. When electrical units are used on the work tables with a conical base, the base allows wires to run through to a floor outlet. The unrestricted opening at the bottom of the base allows the base to be placed over the floor electrical monument.

Both the EC23 and EC24 are centered on the top over the base.

Conical Table Base - Material and Grain Direction

The conical base on the pull-up and work tables is polystyrene material with a wood grain texture. This base is available in wood finishes and paint colors. Color Coordinate Finishes are intended to coordinate with select laminates. Adjustable leveling glides are included.

Media Tables and Media Credenzas - Wire Management and Power/Data

Easy access to wiring is provided in the Moto Media products. Well placed grommets, doors, and allowance inside the cabinets makes it easy to outfit these units quickly. The recommended EC25 brings power and data access to the top.

- a** grommet for the monitor's wiring
- b** wiring for the the EC25 unit
- c** suggested location for technology
- d** electrical wiring thru cabinet bottom to power source

Media Tables - Power Location

The EC25 is available on media tables. The location shown below is for all table wedge shape tops, location for EC25 on bullet shapes are similar.

EC25 Power Unit Location Examples

Media Tables - Leveling the Post Column

Leveling is made easy by turning the column.

Markerboard Back Panel Options

Markerboard back panels can be specified for the back panels on Media Tables, Media Credenzas and Bookcases.

JSI's extended powdercoat program of bright colors is available, upon request, on Oxley. Contact Customer Service for a specific quote based on qty of units.

Upholstery Application

Fabric will be applied differently on the Oxley Benches dependent on style to best accommodate yardage use and aesthetics. Please see below graphics to help understand the different application methods. For **Plain (P)** models, the standard application will be “up the roll”, whereas for **Quilted (Q)** or **Tufted (T)** models, the standard application will be “railroaded”. Customers wanting fabric to be applied differently than stated above can be accommodated upon request. Additional seaming may be needed pending fabric width and textile repeat match, contact Customer Service with questions.

Leather not offered on Quilted (Q) models.

“Railroaded”

“Nap” or “Up the Roll”

Upholstery Detail Selection

Oxley offers three types of upholstery detail: Plain, Quilted, and Tufted.

Plain

Quilted

Tufted

Metal Frame Construction

The frame is constructed of 1/2" x 1" rectangular fabricated steel. It is powdercoated with your choice of the following colors: Arctic Silver, Matte Black, Pewter, and Soft Nickel.

Overview

Ziva is a comprehensive collection of freestanding and configurable seating with an offering of occasional and work tables.

Features

Functional details are integrated into the high design of Ziva. The linear stitch pattern in the lumbar area creates interest, while adding comfort. End and middle arms allow for optional tablet. The custom foot allows for leveling and supports the caster option, if mobility is needed. An upper privacy surround on the single or two seater has acoustical capabilities, creating visual and audible privacy for the seated user.

Product Options

The models come with a variety of options. The front casters and back handle on the single seat provides for mobility. Several options in power and charging along with a stand up surface providing solutions for versatile environment.

Product Options

Selected Ziva lounge models may be specified with power in two different locations. Power outlets on the side of units (including the end arm or the privacy surround) will have **A** configuration. Power outlets on the lower center back have the option of **B** or **C** configuration per model. All units are available in black or white and have a 10' cord.

Recommended Combinations

Ziva is designed to fit the user's preference. To uphold the design statement of Ziva, it is recommended that adjacent layouts have backs on the same side (example 1 & 2) or attached to a bench (example 3). Opposite facing configurations may be achieved by placing a bench or benches in between the two directions (example 4).

(example 1)

(example 2)

(example 3)

(example 4)

Ottomans and Tables

Ottomans and tables can complete a layout and provide functionality. The ottomans are available in four diameters. Both the ottoman or the half round coffee table fit perfectly inside round configurations.

The light scale tables have an Arctic Silver powder coat frame with wood, laminate or solid surface top. The versatile work height tables serve as an end table and arm rest. They can be positioned over benches or the seated user to be used as a work surface. Tables are available in square, rectangle, or half round. They are designed to be used individually or paired up with a matching table.

Tablet Table Option

All arms on freestanding and modular units are available with an optional 14" diameter tablet. It is offered in 3/4" thick wood, 3/4" thick laminate or 1/2" thick solid surface. The wood tablet is available in Cherry, Maple and Walnut.

The tablet is on a swivel mechanism allowing it to be placed closer to the user. The recommended weight limit for the tablet is 75lbs. JSI does not warrant any damage as a result of excessive weight.

Lounge

Rights and Lefts

The handedness of the chair is determined by seated position.

Frame Construction

Frame interior is upholstery grade plywood with glued solid hardwood cross members reinforced with wood screws.

Seat Construction

Seat has synthetic sheet webbing with cross strap and 3 5/8" thick high resiliency polyurethane multi-density foam.

Back Construction

Back has 1 3/4" thick polyurethane foam, back lumbar has 10 channel stitch detail thru 3/8" thick polyurethane foam.

Arm Construction

3/4" of high grade polyurethane foam covers a plywood constructed arm frame.

Upholstery Detail

Contrasting fabric available on the back or the arms and seat.

Patterned fabric is not recommended as the fabric may not align at the same location.

Screen & Shelf - Outside BackTables

Frame Construction

Arctic Silver powder-coat finish over a fabricated and welded tubular frame.

Top Construction - Veneer

1.5 mm rimmed core with veneer surface.

Legs

Die cast zinc with matte chrome finish.

1" of height adjustability on the glide.

Tablet Arm

3/4" thick with Veneer or 1/2" thick Solid surface. Mechanism allows for a full 360 degree of swivel and writing surface of 14" diameter.

Important Upholstery Information

To reduce the number of seams and to achieve a clean look, **Railroaded** off the roll application is standard for Ziva. Line art and pricing for Ziva reflects railroaded fabric. **Due to the size of Ziva and minimal seams, patterned fabrics with the nap (side to side), and leather are not recommended.**

JSI strives to achieve customer satisfaction, therefore requests for patterned fabrics, with a nap application, and leather will be reviewed on a case by case basis. Fill out the sample form on the next page and contact Customer Service. Additional fabric yardage may be required and will be the customer's responsibility. The customer may also be asked to approve additional seaming. Other additional charges may apply. If a patterned fabric is specified, JSI does not guarantee matching at seams.

Standard Seaming

The back and seat are upholstered separately and therefore will have no joining seams, only tailoring seams as per the product design. Shown below are examples of seams required to join the fabric on the seat and surround. (marked with a ●)

The seat seam is hidden on freestanding and modular units with full backs. Partial back modular units have seaming on the bench section on the same side as the back.

Benches (freestanding and modular) and ottomans have tailoring seams to align with the feet on the seat platform.

48" and 42"

36"

Privacy Surround will have a fabric joining seam on the front band of surround.

Seating Material Options

This form must accompany order when specifying contrasting or complementary upholstery.

Call for yardage and pricing.

Area (a), (b) and (c) are upholstery and can be specified in contrasting fabric. Legs and handle are a die-cast zinc with a matte chrome finish.

Environmental Mission

Our vision and goal is a sustaining supplier, manufacturer and customer for the long term protection and preservation of our environment for future generations.

MISSION

To achieve this vision, we are dedicated to ensuring the health and wellbeing of all of our partners, reducing negative impact on the environment, and maintaining price structure by increasing efficiencies and reducing consumption.

JSI, and it's parent company, is an internal manufacturer and has been an environmentally conscious organization for more than 80 years.

We are proud to use wood as our primary sustainable material resource and all corporate policies and procedures support the efforts to "recover, recycle, reuse, repurpose, reduce, refuse, and re-engineer". In doing this, we are committed to the conservation of the environment and its natural resources as well as encouraging our suppliers and customers to do the same. A goal of a "Sustainable Partnership", supplier, manufacturer and customer, is essential for the long term protection preservation and sustainability of our environment for future generations.

LOCATION

Our manufacturing facilities are located in the center of Southern Indiana. With our diverse product offering and manufacturing capabilities, we provide a single source for all of your project needs allowing you to conserve our fossil fuels and reduce greenhouse gases.

PACKAGING

We place emphasis on the minimal use of disposable packaging while still providing adequate protection to the finished product. Our corrugated packaging is recyclable, reusable, and up to 100% recycled content. We reuse or recycle more than 175 tons of corrugated material annually.

REGULATORY

All of our manufacturing facilities are in compliance with applicable OSHA regulations and meet or exceed all applicable DEM and EPA regulations for air emissions, storm water and hazardous waste disposal.

MANUFACTURING FACILITIES

Our manufacturing facilities are geared toward eco-efficiency and are encouraged to continually improve and conserve. Solid wood not used in the direct manufacturing process is recovered for the operation of our dry kilns, thus reducing greenhouse gases, the use of fossil fuels, and the burden of waste placed on landfills. Composite panels not used in the direct manufacturing process are ground and sold for use as animal bedding and boiler fuel. In addition to other energy savings techniques, our manufacturing facilities use high efficient lighting, make use of power factor capacitors, and encourage all to conserve and reduce energy consumption and water usage. Condensation pumps are used to aid in water conservation as well as extending boiler life.

MANUFACTURING PROCESSES

Our finish processes utilize efficient spray guns and proper spray techniques to reduce wasted material. Excess finish material, solvents, and waste are recycled. Many of the assembly processes use water based glues that contain no hazardous ingredients.

TEXTILES

Many of our fabric options utilize up to 100% recycled content. Our leather alternative program includes selections that contain no toxic materials, plasticizers, heavy metals, or formaldehyde and have a 100% biodegradable back cloth. Some of the available panel fabric used, if discarded is a biological nutrient for the soil. Most of the components (foam, batting, and polycord) used in upholstered products are recyclable. Excess fabrics and leathers not utilized in the upholstery process go to recyclers and local charities for additional use.

WOOD

Wood is the most diverse, most process friendly, and most widely utilized natural resource in mankind's history. No other natural resource can match the environmental advantages of wood, including being renewable, recyclable, natural, carbon negative, and biodegradable. Utilizing the sun's energy, trees grow and remove carbon dioxide from the air while giving off oxygen to benefit the entire planet. Approximately 49% of wood's dry weight is carbon and harvesting mature trees in a sustainable forest, which has slowed in the absorption of carbon dioxide, allows the photosynthetic cycle to continue at full optimization and allow for the carbon to remain sequestered. We are proud to use wood as our primary "sustainable" renewable resource.

WOOD OPTIONS

Many environmentally friendly solid wood and engineered wood options are available for quote, including: Lyptus®, Plyboo®, reclaimed woods, agricultural and post-consumer waste fiber products, etc.

INDOOR AIR QUALITY

Our goal is to reduce the impact our products will have on the indoor air quality. We practice the latest technologies and utilize a third party to assure we meet this goal. GreenGuard, one of the leaders in IAQ certification, continues to certify our product offering with UL2818 - GreenGuard Indoor Air Quality certification.

Lifetime Warranty

JSI warrants to the original purchaser that each piece of furniture will be free from defects in workmanship, given normal use and care for as long as the original customer owns and uses the product. Normal use is defined as the equivalent of a single shift, 40-hour work week.

JSI will, at its option, repair or replace with comparable product within the terms of the warranty.

Exceptions to Warranty:

12 Years (from date of purchase)

- Wood Seating
- Seating Controls
- Veneer Surfaces
- Laminate Surfaces
- Pneumatic Cylinders

5 Years (from date of purchase)

- Glides · Casters · Task Lights
- Mesh/Knit Material · Foam
- Florette Plastic Frame Chairs
- Electrical Components
- Electric Height Adjustable Bases

This Warranty Does Not Cover:

- Natural variations in color, grain or texture of wood and other covering materials over which JSI has no control.
- Normal wear, color fastness, shrinkage, puddling, wrinkling and stretching of upholsteries including fabric, vinyl, leather and other textiles. This warranty does not cover any defects that may arise in the use of COM or COL upholstery materials. Textile manufacturer's warranty will apply.
- Damages resulting from transportation, improper assembly, installation, handling, accident, user modification attachments, misuse, or neglect of product care.
- Damage resulting from extreme climate conditions.
- Finish damages resulting from normal wear and tear, improper maintenance, water damage, exposure to sunlight, extreme high or low humidity or temperature, or other acts of nature.
- Damage created by loading file drawers with anything other than hanging folders.

JSI makes no expressed or implied warranties to any product and, in particular, makes no warranty of merchantability or fitness for any particular purpose. JSI will not be liable for any consequential or incidental damages under this warranty.

Unique Characteristic of Natural Woods and Veneers

JSI uses high quality wood and veneer harvested from sustainably managed forests. Every tree has unique and defining characteristics, like fingerprints. These characteristics can be defined by differences in color, grain configuration, and textures. These characteristics will be more noticeable if the product has a clear or lighter finish.

Maple and Cherry species have a higher degree of uneven distribution of grain, small color streaks, and pin knots.

At JSI, we take care of selecting woods and veneers that are used in our products. With this in mind, we hope you appreciate the beauty of each tree's fingerprints. Products will not be replaced due to these natural characteristics.

Veneers can be sliced in a variety of ways to create unique patterns. JSI uses several different patterns, as shown below.

Flat (Plain) Cut as shown in diagram

Quarter Sliced as shown in diagram

Double Cut as shown in diagram

Rift Cut as shown in diagram

Double Cut

The Double Cut veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern.

JSI uses select beech, cherry, maple, oak and walnut cut wood products to produce the desired look of our furniture products.

Laminates (Veneer Series)

An alternative HPL (Higher Pressure Laminate) laminate work surface can be specified on most of our casegood product lines. The specification pages will also list the available coordinating finishes.

Laminate Series

JSI laminate series offer a full laminated product with imprinted grain to hide finger prints and provide durability. The worksurface tops are HPL (High Pressure Laminate) or TFL (Thermal Fused Laminate). TFL is used on the product's chassis.

Please reference the featured highlights of each product line to identify the species, grain patterns, finishes for that product series

Finish - Top Coat

To reduce hazardous formaldehyde emissions, we use our proprietary specially designed top coat, DuraTex™. It significantly reduces hazardous formaldehyde emissions and helps improve indoor air quality.

Finish - Color/Stains

A wide range of stains are available to bring out the beautiful characteristics of each wood species. We coordinate finish color between our veneer stains and solid lumber stains; however, not all may be a perfect match. The stains are continually reviewed for accuracy of color, as well as a constant monitoring of the latest color trends in the furniture market.

Finish - Matching

Due to the natural characteristics of wood, environmental effects, and material upgrades, JSI cannot guarantee exact finish matches on existing furniture previously ordered.

If an exact match is required to accompany existing furniture, it must be specified at the time of order placement, so specific internal procedures can be followed to ensure a proper and acceptable finish match. We reserve the right to change our finish formula at any time to improve safety, quality, and appearance. Unless a finish match for existing furniture is requested at the time of ordering, we accept no liability for finish that may not match the existing furniture from prior orders.

Solid lumber may inherently have mineral streaks, pits, and various other natural occurrences. Care is taken in selecting the solid lumber to coordinate with the requested finish on our veneer products. This internal selection process is subject to availability of solid lumber parts.

Finish Sheen

All casegood veneer finishes are standard in 35-sheen, with the exception of Raven, which is only offered in 15 sheen. All other finishes are available in 15 sheen, with a 5% upcharge, per model

Custom/Special Finishes

JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first time matches and must be included with the written request.

There is a one time charge of **\$372 list per order** for any non-standard wood finish.

Orders will be entered noting the special finish. A sample match will be provided to the customer. Written approval is needed before the finish process can be started. Delays in approval may have an impact on lead times.

Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finish product.

Samples

Samples of standard wood finishes, paints colors, metal colors, and standard laminate are available upon request. The fastest way for requests to be filled is by using our website. See below for options to request samples.

JSI reserves the right to make changes in dimensions, styles, or specifications if we believe these changes will improve the safety, quality, or appearance of the product.

Acceptance of orders will be subject to credit approval, barring any acts of governments, or any other causes beyond our control (e.g. strikes, fire, embargo of materials, etc).

Product Modifications

While we offer a wide range of products to accommodate many possible solutions, we also recognize the needs for our products to be modified from our standard offering.

In the series introduction section of each product, we address modification options for that series.

To see if the desired modification is possible, please contact our Customer Service Department for a quote. Note that order quantities and material availability can affect the quote. Additional information may be requested to fully quote modifications.

Order Acknowledgments

All orders will be acknowledged promptly upon entry of a clean order. The acknowledgment will show how the order was entered, ship date and any other information pertinent to the order. It is the purchaser's responsibility to verify all the information on the acknowledgment carefully and notify us immediately, in writing, of any discrepancies.

Every reasonable effort is made to ship as acknowledged; however, the acknowledged ship date is approximate. Company will generally ship within five (5) working days of the acknowledged ship date. If a firm ship date is necessary, customer must inform company at time of order and company will make all reasonable efforts to meet each customer's request. Acknowledged shipping dates are contingent upon the force majeure conditions contained in these terms and conditions.

Quickship

JSI offers select Vision models, with select options, in our Quickship program. These items ship within 10 business days after receipt of a clean, credit approved purchase order. Items should be placed on order separate from standard lead time models.

Product for up to 10 offices or 10 tables can be included on a single Quickship order. Available capacity is filled by orders as they are received. If normal 10 day Quickship is not available because capacity has been filled, you will be immediately notified by JSI customer service. Changes and cancellations to Quickship orders are not allowed under any circumstances, nor are modifications to the predetermined Quickship offering. Limit one order per project.

Delivery

Our freight policy consists of prepaid freight to the 48 contiguous states; all other shipments are prepaid to port of exit ONLY. JSI reserves the right to select the appropriate carrier and shipment routes, most shipments are on freight carriers that are dedicated furniture specialists. Standard deliveries require a DOCK that can accommodate **75 foot trucks**. Ownership and inspection of product is the responsibility of the buyer upon pickup by the freight carrier. Pricing in this book is for standard delivery only. Standard delivery does **not** include non-dock delivery, inside delivery, residential delivery or installation of product. Fees and changes for non-standard deliveries are listed below.

Standard Delivery Time

Between 8AM and 3PM Monday through Friday. Special delivery requests can be subject to additional fees to accommodate requests.

Cancellations and Changes

All orders are considered firm and are not subject to cancellation or change without approval from JSI. All approved changes are subject to additional charges and revised lead times

No Touch Freight

Our freight is considered "no touch". Therefore, customers are to be prepared to unload freight from inside the truck prior to arrival. In the instance that a driver must unload the shipment, driver assists fees will apply (see fees below).

On-Site Deliveries

Shipments to the installation site, and time deliveries are available on full truckloads or slightly less, at no additional charge. Shipments or timed deliveries for smaller shipments may not be available, or if available may require an additional charge.

Detention Fees

- Carriers are given two-hour maximum time allotment to unload for one-stop truckloads.
- Carriers are given one hour maximum time allotment to unload for multi-stop truckloads
- *Detention fees apply after allotted unloading time and will be at buyer's expense.

Fees

- Reconsignment fees are the responsibility of the buyer.
- Any charges arising from failure to meet shipment, re-routing while in transit or carrier storage charges are the responsibility of the buyer.
- Contact Customer Service to inquire about skidding of products, special crating of products and product installation. These requests must be approved by JSI and made at the time of order.
- Carriers have the right to refuse delivery to a specified location if it conflicts with their liability policy.

Freight Damage

JSI products are packed in cartons and meet or exceed existing codes for furniture and seating products. All shipments are delivered to the carrier in good condition and our liability ceases thereafter. If delivery arrives short or damaged, contact the carrier immediately to file a claim. In the event of concealed damage, notify the carrier and request immediate inspection. Failure to file a claim within 15 days after receipt of merchandise constitutes acceptance and a waiver of any such claims. Please inspect merchandise immediately upon receipt, otherwise there is no recourse. Keep all cartons and packing material, discarding these materials may negate your claim.

Storage of product in areas of uncontrolled humidity and temperature may cause damage to the product and void the JSI warranty.

Repairs

JSI will not issue credit allowance for any type of repairs without prior written consent.

Sales order, product model numbers, and reason for repair will be expected in order to process the repair request. A digital photo will help to expedite the request. JSI reserves the right to recommend solutions for repair.

Replacement Parts

Obtain information and pricing on replacement parts by contacting Customer Service. Please have the model number available when requesting replacement parts. Additional information may be required to ensure proper replacement parts.

Returns

JSI products are made to order and may not be returned for credit. No merchandise may be returned to JSI without a signed Return Good Authorization (RGA) form issued by our Customer Service Department. RGA's will be considered for the following reasons:

1. Manufacturing defect (validated by JSI representative).
2. JSI order processing error.
3. Shipping error.
4. Mis-marked cartons.
5. Duplicate shipments.

Liability for defective merchandise shall be limited to replacement or repair.

If you have questions as to whether your reason for return qualifies for consideration, please contact Customer Service. At the discretion of JSI, returns on stocked items may be considered with the following stipulations:

1. 60% restocking fee.
2. All return freight charges must be prepaid by dealer.
3. Product was never removed from the original carton.
4. Product must be returned within 30 days of RGA issue date.
5. Credit will not be issued if product returned is damaged.
6. Under no circumstances can we accept COD (Cash on Delivery) returns. Any such shipment will be refused.

Please note most models on Quickship are produced on demand and cannot be returned. Modified, special or custom-built product is not eligible for return.

Fire Retardancy

All JSI upholstered components comply with California Bureau of Home Furnishings and Thermal Insulation-Technical Bulletin 117-2013 issued by State of California Department of Consumer Affairs. This standard requires upholstered furniture to be safer from the hazards associated with smolder ignition in all four (4) categories of materials, as applicable.

Compliance with more stringent codes may require special manufacturing considerations and upcharges.

California Technical Bulletin 133 (CAL 133)

JSI uses a barrier material between the foam cushioning and the upholstery cover in order to comply with CAL 133. The standard upcharge on products specified to comply with CAL 133 is **\$78 list per yard** of textile.

JSI has performed a series of full scale fire tests on samples - representing worst case scenarios of upholstered units - to comply with the requirements of the state of California Technical Bulletin 133 (CAL 133). Products in compliance are labeled in accordance of the standards.

Some product designs and fabric cannot be combined to comply with CAL 133. Because of this, we reserve the right to reject any request for an upholstery cover, including COM, textile may not contain olefin or product style that we feel may compromise the integrity or safety of a product specified to comply with CAL 133.

Contact Customer Service for a quote if you require laboratory certification that a specific product and upholstery combination WILL PASS CAL 133. The quotation will include testing, video, and transportation charges plus the list cost of the sample.

Our standard lead time will apply to products that do not require certification. Allow an additional six weeks over the standard lead time for products that need actual laboratory certification.

The end user, specifier and/or dealer have the responsibility to make sure all products specified will meet the flammability and safety codes of the jurisdiction where the products will be located and used.

Flame Spread

All JSI may be required to comply with the requirements of Flame Spread based on ASTM standards/NFPA Life Safety Codes and general public knowledge are as follows:

Solid Wood - Class C
 Topcoats - Class A
 Carded Fabric - Class A
 Composite Panels - Class C
 Laminate - Class B

Plastics - According to the NFPA, the lack of stability of plastics under high temperature conditions and inherit combustibility have eliminated the use of plastics for applications requiring a flame spread rating.

Also be advised that improvements may be attained in certain instances with the addition of chemicals which may add additional costs, chemical exposure and/or compromise the integrity of the product.

Textile Carded Programs

JSI is proud to partner with Maharam, Momentum, Spradling, Stinson, Ultrafabrics, Camira and Cortina Leather. Please refer to our website for our standard patterns, along with the current grade.

Any textile not graded in or pre-approved for COM/COL will require application test approval prior to order entry and shipment of fabric or leather to JSI. For current JSI grades and application status by series visit jsifurniture.com Resources > Graded-In + COM; jsifurniture.com Resources > Graded-In + COM.

Indicate on purchase order if JSI is to order the fabric.

Grades and availability of fabric are subject to change without notice. Changes could include but are not limited to price increase, discontinued patterns, discontinued colors, etc. See jsifurniture.com for up to date information.

Many textiles have repeats and the additional yardage required has been factored in for textiles ordered through the JSI Carded and Grade-In Programs. We reserve the right not to match textiles with a horizontal or vertical repeat greater than 17". Additional charges may apply for textile being applied with special instructions.

Some fabric thickness or stiffness may cause issue with proper upholstering of tackable wall panels or upholstery privacy screens. Please contact customer service with concerns on the fabric thickness for these items.

General COM Fabric/COL Hide Policy

Refer to the COM/COL Price Columns for list prices.

All yardage requirements listed in the price list are based upon 54" plain non-directional material. Additional yardage may be required based on fabric repeat and matching.

All square footage requirements for COL are based on an average hide size of 50 square feet.

Contact Customer Service for any of the following conditions:

- + approval of COM/COL to be used (see policy on the next page)
- + fabric repeats greater than 3"
- + fabric less than 54" wide
- + leather hides smaller than 50 square feet
- + special application requirements request

When requesting information from Customer Service on COM/COL please supply the following information:

- + model number and quantity of the product the COM/COL will be applied
- + COM/COL textile supplier's name
- + name of pattern and color of the textile
- + any special application request

Visit jsifurniture.com Resources > Graded-In + COM to see if the textile has already been approved. If there is no record for this particular textile then a Memo Sample will be required.

JSI takes no responsibility when additional materials must be ordered.

COM Fabric Repeat Guide

Roll Width	Plain Fabric	1" - 5" Repeat	6" - 10" Repeat	11" - 15" Repeat	16" - 20" Repeat	21" - 30" Repeat	31" - 40" Repeat	41" - 50" Repeat

The percentage represents the additional fabric yardage that needs to be added to the COM yardage. Contact Customer Service for repeats greater than 50".

All COM/COL must meet applicable codes and regulations, including TB117-2013. By selecting COM/COL, customer certifies that the material meets such codes. JSI assumes no responsibility for the applicable codes and regulation regarding flammability rating and safety rating of any COM/COL.

JSI cannot be held responsible for receipt of defective fabrics, as we apply all COM as first quality goods.

We can take no responsibility for tailoring, wear-ability or application of COM/COL textiles. Any warranty claims for the COM/COL Textile materials will fall to the original vendor of the textile, not JSI.

COM Fabric/COL Hide Process for JSI Seating

General COM Fabric and COL Hide Policy also apply.

JSI will approve or disapprove COM/COL on all products. An approval of a textile from JSI makes no claim that performance, durability or tailoring of COM/COL will result in satisfactory upholstery. Every effort will be made to meet customer's expectation, but fabrics/leathers have unforeseen inherent characteristics that may limit JSI's ability to deliver a well tailored product.

Care and Maintenance

Care and Maintenance

Care of Upholstery Surfaces

Cleanability will vary based on the fabric type. For best results, a professional service is recommended. Dirt and crumbs may be gently brushed or vacuumed off. Spills should be wiped up immediately with a cloth. Vinyl textiles can be cleaned with warm soapy water and then wiped down with a warm damp cloth. For more details on any JSI carded fabric and vinyl, please visit our website at jsifurniture.com or consult the back of the appropriate swatch card for cleaning codes and any specific instructions. For COM materials, consult with the individual textile manufacturer for cleaning codes and any specific instructions pertaining to your particular fabric.

Maintenance of Mechanical Parts

Clean any lint or debris from the moving parts of the base mechanisms. Mechanisms have been designed and tested to not require lubrication under normal conditions; however, lubricant can be used if needed.

Care of Wood Edges and Veneer Surfaces

Clean all surfaces frequently with water dampened soft cloth, moving the cloth with the grain direction. Immediately remove any liquids that come in contact with wood surfaces with a blotting action to absorb liquid. Buff dry. Lift objects to move them, never pull them across the finished surface. For an additional safeguard, use a protective surface pad. This will ensure a lasting finish by protecting your furniture from possible damage caused by pens, cups and sharp objects. Avoid exposure of furniture to extremes of heat and cold, or to wide humidity variances. Avoid exposure of furniture to strong sunlight. Avoid exposure of furniture to harsh solvents such as nail polish remover, acetates, etc., as it will cause finish deterioration. If using a protective glass top, place spacer pads under the glass top to allow the wood to breath.

Care of Metal Finishes

Wash you powder-coated item at least one every six months. Use soft rags only - No abrasives. For stubborn stains and grease marks, use soap and water mixture. Combine 1 gallon of water and 1 cup of the neutral detergent in the bucket. Mix it up by swirling one of the rags around in it. Wipe down the powder coat with a rag that has been dampened with the cleaning solution. Do not scrub, but use gentle, repetitive pressure to remove any built-up grime. Rinse the powder coat off with a rag dampened with clear, clean water. Do not spray it down, but rather wipe it off with the rag. You may need to do this several times to get all the soap off. Wipe the powder coat down with a clean dry rag. This will prevent streaking and spotting.

Care of Frosted Glass

Use a clean, dry lint free cloth to wipe the surface. Follow with warm water and a clean rag; no soap or chemicals. Wipe dry with a clean, dry lint free cloth. Cleaning the frosted side is not recommended, if desired to clean use the above method but do not spray the water on the frosted side, use a clean rag. Please allow 48 hours for the frosted side to dry and not to show cloudiness.

Tempered Glass Information

JSI is aware of occasional occurrences of spontaneous glass breakage in various furniture products. Tempered glass makes it stronger and if it breaks, will cause it to break into many small pieces of "cubes" rather than sharp and potentially dangerous shards.

Glass breakage in furniture may occur for a variety of reasons. Tempered glass is particularly prone to breakage from damage (scratches, nicks, etc.) that may occur during shipping, handling, installation, use or maintenance. Exposure to rapid changes in temperature or concentrated temperature zones may also cause breakage.

Tempered glass may also break due to a specific type of imperfection or "inclusion" that occurs within the glass when manufactured. When this condition exists glass breakage may occur without any obvious cause. This is often referred to as "spontaneous" breakage but is a very isolated occurrence in the glass industry.

Care of Dry Erase Boards

Erase after every use to eliminate ghosting. Clean weekly with a Dry Erase Cleaner. Avoid the use of orange and red Dry Erase Markers. Follow manufacturers cleaning instructions for the eraser. If ghosting or staining remains use a small amount of rubbing alcohol on a clean, soft towel to remove.

Care of Solid Surface

Although liquids cannot penetrate Solid Surface, it is best to wipe up spills as they occur. Generally, a damp microfiber cloth used with a standard household kitchen spray should remove most stains.

For most residues, all you need to clean your Solid Surface countertops is a warm soapy water, ammonia-based household cleaner or a dedicated countertop cleaner. Do avoid window cleaners; however, as they can leave a waxy build-up that dulls the surface. Always clean using a circular motion.

Film will build up on countertops if water is left to dry on the surface. This film will dull the countertop surface, making the finish appear blotchy and uneven. To prevent film build-up, it is very important to wipe the countertop completely dry immediately after spills and cleaning.

Some color of Solid Surface may require more frequent cleaning to maintain a uniform finish. Darker colors tend to require more attention than lighter colors. Over time, even with proper care, your countertop will acquire a sheen. Dark colors may show light scratches more readily.

Specification Tools

JSI products are manufactured to order and provide a multitude of options to address your individual customer needs. As you process your order do not forget to include all the necessary information to allow the order entry process to be completed. Please see the order checklist at the beginning of every series.

JSI Customer Service edits every order for complete information. If details are not included with the purchase order, Customer Service will contact you to answer these questions. If information is not completed in a timely manner it will delay the entry process and could affect your product delivery date. To avoid delay in order entry and potential delay in delivery of your order, please double check the line items to ensure all selections have been completed.

To ensure completion of details on your purchase order, electronic catalogs and specification tools have been developed to aid in the process. These electronic tools include:

20-20 GIZA Studio and 20-20 CAP Studio software offers state-of-the-art design, specification, photo-realistic rendering and three-dimensional visualization capabilities for configurable products in the commercial interior design markets. 20-20 GIZA Studio and 20-20 CAP Studio are available for all JSI Casegood and Seating products, in 2D and 3D graphics and the Specifier Catalog. Updates are made monthly reflecting any changes that occurred. To be sure the most up to date information is provided on orders, users of this software program are responsible to update their catalogs.

CET Designer, by Configura is an all-in-one software solution for space planning and configuration of products. The intuitive workflow guides you through entire process from idea to reality - supporting every step of the sales process

ProjectMatrix, Inc. offers a full software solution for the contract furniture industry. Product Modifications

We willingly accept customers' modifications to standard products. See product modification information by series at the start of each series under the "Product Modification" sections. If there is a modification you desire that is not listed in this section, please call Customer Service for a modification quote/price

Acceptance, Modification, Assignment

By placing this order for furniture, material or other products (sometimes collectively referred to as "goods"), customer agrees to these terms and conditions which shall prevail over inconsistent provisions in any other form or document of customer. No change or modification shall be applicable unless set forth in writing and signed by company. Neither this order nor any interest therein shall be assigned by customer except with the prior written consent of company.

Payment

Customer agrees to pay to company the amount indicated on the invoice, 1% 15 days, net 30 days from date of invoice (U.S. funds only), for goods ordered. Interest will be charged after 30 days from the date of invoice at the rate of one and a half percent (1.5%) per month. International sales will require additional payment arrangements. No goods shall be sold on consignment or conditional sales basis. Payment for the goods delivered hereunder shall constitute acceptance thereof.

Attorneys' Fees

Customer shall be responsible for all expenses and cost in connection with the enforcement by company of these terms and conditions and the cost of collection (including the fees of any collection agencies to whom the customer's account may be referred), plus reasonable attorneys' fees (which attorneys' fees shall not be less than 25% of the amount due, unless a lower amount is specified by applicable law).

Remedies

The remedies herein reserved shall be cumulative, and additional to any other or further remedies provided in law or equity. No waiver of a breach of any provision of these terms and conditions shall constitute waiver of any other breach or of such provision.

Insolvency

Company may forthwith cancel this order in the event of the happening of any of the following or any other comparable event: insolvency of the customer, the filing of a voluntary petition in bankruptcy, the filing of any involuntary petition to have customer declared bankrupt provided it is not vacated within thirty (30) days from the date of filing, the appointment of a receiver or trustee for customer provided such appointment is not vacated within thirty (30) days from the date of such appointment, or the execution by customer of an assignment for the benefit of creditors.

GSA Terms and Conditions

Limitation of Liability

The Company shall not under any circumstances be liable to the customer, owner of the goods or any third party for special, indirect, incidental, or consequential damages, including, without limitation, loss of profits or revenues, loss or damage to other property or equipment, cost of capital or of purchased or replacement goods, or expense, delay, or inconvenience cause by or arising from the purchase, sale, use, repair or inability to use the goods or by any performance or non-performance under, or breach of, these terms and conditions. The Company's sole liability for any defective goods shall be its repair or its replacement pursuant to the express warranties set forth above, or if amended, as applicable at the time of manufacture or repair of the goods. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusion may not apply to all customers. Any action resulting from any breach on the part of company as to the goods or services delivered here under must be commenced within one year after the cause of action has occurred.

Returns and Allowances

Reasonable touch-up and deluxing is the dealer's responsibility. The Company will not make allowances for trip or delivery charges, but will only make allowance for actual work performed to correct manufacturing defects. Allowances maybe authorized only by a company officer. It is the responsibility of the field sales representative to inspect any defective merchandise and make suggestions and recommendations as to the proper disposition. Field personnel cannot obligate or bind the company by definite agreement, without final authorization by a company officer. Company will not accept automatic charge backs which do not have prior authorization. All defects must be called to the company's attention upon arrival at the customer's "ship to" destination. To initiate any type of claim or request for parts, it is imperative to have the model number or fabric number, which may be located on the tag attached to the frame of the unit. Authorization for return to the company via a return goods authorization. Company will not issue credit allowances for any repairs without company's prior consent. Under no circumstances shall the company accept COD (cash on delivery) returns, and any such shipment will be refused.

Security Agreement

The Company may require and customer shall grant a security interest in goods sold pursuant to any credit the company may extend to the customer.

Governing Law

All disputes between the parties, whether or not arising out of these terms and conditions, will be governed by the laws of the state of Indiana. Customer agrees to submit to the jurisdiction of and agrees all lawsuits relating to any disputes between the customer and the company will be brought only in a state court located in Dubois County, Indiana or the United States District Court for the Southern District of Indiana. The customer hereby waives the right to a trial by jury in any action, proceeding, claim, or counterclaim whether in contract or tort, at law or in equity, arising out of or relating in any way to these terms and conditions and all other disputes between the parties.

Mitigation

If the company repossesses the goods prior to payment by the customer of all amounts due hereunder, the company may sell the goods, as is, where is, free and clear of all rights of the customer at either public or private sales, and apply the net proceeds (after deducting expenses of repossession and sale) to the obligation of customer hereunder. The customer may dispose of the goods in any commercially reasonable place and manner and the customer waives any notice of time, place and manner of sale.

Integration

This order for goods, including these terms and conditions, along with any credit application, invoice, statement, dealer contract, acknowledgment, bill of lading (and any exhibits, addenda or amendments thereto) of which this order may be a part, constitutes the sole and complete agreement between the company and the customer with respect to the purchase of the goods.

Dimensions/Specifications/Finishes

All dimensions are approximate and may vary due to the upholstery technique of each craftsman. If exact dimensions are required, it is necessary for the customer to state such specifications with the order. Detailed specifications sheets are available for each series of goods, and customer should consult the company's customer service department for these specification sheets. Company reserves the right to make changes in dimensions, style, or specifications if company believes these changes will improve the goods' quality or appearance. Company reserves the right to substitute hardwoods due to availability at production. Due to the natural characteristics of wood, environmental effects, and material upgrades, the company cannot guarantee exact finish matches on existing goods previously ordered from company. If an exact match to customer's existing goods is required, it must be specified so that the proper procedures can be followed to ensure an acceptable finish. Company will accept no liability for the finish if this procedure isn't followed. Company reserves the right to make changes in a finish formula if company believes the change will improve the quality or appearance of company's goods.

Company's Performance of Its Obligation

The production and delivery of the goods to the extent delayed or hindered or prevented from the performance by reason of natural disasters, acts of god, strikes, lockouts, labor troubles, inability to procure materials, casualties, failure of power, restrictive governmental laws or regulations, riots, insurrections, acts of terrorism, war or other reason of a like nature not the fault of the company shall excuse for the period of the delay the company's performance and the period for the performance shall be extended for a period equivalent to the period of such delay.

Vision Product Information

Veneer

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Vision product line. To attain a pleasing, symmetrical pattern, all cherry, maple, walnut and black oak veneers in Vision are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Book-Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book

Vision is available in flat cut cherry, maple, walnut and black oak veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Vision product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below show the tight pattern used on Vision.

WorkSurface Construction

Flat Cut veneer worksurfaces have a 5-ply balanced construction, Double Cut veneer and Coordinating HPL are 3-ply. The tops are 1 3/16" thick with solid matching hardwood edges. Surfaces are available in wood veneer or high pressure laminate. No additional charge for using our coordinating high pressure laminate with a veneer grain pattern with finish wood edges, see page VI3 for available laminate options.

Case Construction

Outside panels are 3/4" and joined together with dowels reinforced with screws, and metal fasteners for increased stability. Tops are secured to the chassis screws through pre-bored stretcher rails and pocket holes.

Cabinet doors have 110° swing hinges to allow adequate access into the interior of the cabinet.

Overhead Construction

Veneer models are unfinished on the back side and fasteners are visible on the back of unit.

Laminate models have visible fasteners on the back of unit.

Finish - Stain/Colors

We offer a variety of wood stains on Vision. Please see the chart below. Samples are available upon request.

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Finish Sheen

All veneer finishes are standard in 35-sheen, with the exception of Raven. Raven is only offered in 15 sheen. All other finishes are available in 15 sheen, see standard modifications page VI40.

Special Finishes

Special finishes can be requested by following the instruction in the general introduction section. There is a one time charge of \$372 list per order.

For species changes contact customer service for a quote.

Vision Product Information

Laminates

Vision Laminate features TFL (thermally fused laminate) chassis and components. *Main Worksurfaces** are available in a HPL (high pressure laminate) or in the TFL surface.

Edges of the worksurface are impact resistant (PVC) on TFL and HPL tops. The laminate is offered in 16 wood grain patterns and 5 solid colors. The wood grain laminate features an embossed grain to hide finger prints and light scratches. The solid laminate is smooth to the touch with a semi-matte finish. All Vision Laminate products are indoor-air certified by GreenGuard.

The chart below lists the laminates available on the Vision product.

TFL - HPL Wood Grain Pattern Laminates

ALL Ale Light	MIN Mineral
BOL Bourbon Light	OAT Oatmeal Cookie
BZW Brazilwood	PIN Pinnacle Walnut
BGL Brighton Light	STU Studio Teak
CLL Collectors	UMB Umber
FAW Fawn	VAL Valley
FLO Florence Walnut	VIN Vintage
GRH Graphite	WEA Weathered Ash

TFL - HPL Solid Laminates

ALB Alabaster	DWH Designer White
BLK Black	SHD Shadow
BBL Bridal Blanco	SLG Slate Grey

WorkSurfaces

Laminate worksurfaces have a 3-ply balanced construction. Tops are 1 3/16" thick with coordinating PVC edges. Primary worksurfaces feature 3mm PVC edges on the approach and user sides. Some laminates have a choice of 3 edge profiles, see page VI4. *Main Worksurfaces** are offered in TFL or HPL.

Bridge, return, credenza worksurfaces are profiled with a 3mm PVC edge on the user side only. Remaining edges are banded with 1mm PVC which creates a seamless appearance when units are mated end-to-end or back-to-back.

TFL features on *Main Worksurfaces**

- fused to the 45 pound density substrate of the top for a durable wear resistant surface
- tops are laminated on both sides
- available in all the wood grain and solid patterns

HPL features on *Main Worksurfaces**

- bonded layers create a durable wear resistant surface
- tops are 3-ply balanced construction
- matched to the TFL wood grain and solid patterns

**Main Worksurfaces include tops on desks, standard height credenzas, returns, bridges and transaction tops. Refer to pricing pages to confirm availability.*

Case Construction

Panels for chassis consist of a 3/4" thick substrate with TFL surfaces and PVC bands on exposed edges. Pedestals and cabinets are constructed with dowels reinforced with screws, and metal fasteners for increased stability. Tops are secured to the chassis with screws through pre-bored stretcher rails and pocket holes.

Drawers

The unidirectional V- Fold drawer box is a durable miter-fold drawer structure which is glued and doweled. The 1/2" thick drawer sides are wrapped in a high grade maple vinyl, with an attached front. The drawer front is attached to the four sided box. Optional four corner dovetailed wood drawers are available on veneer units. Specify and add 10% per unit.

Drawer Suspension

High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Filing Hardware

All file drawers are constructed with a custom designed filing system for hanging folders. Filing diagrams on pages VI28-VI34.

Locking

All desks, returns, credenzas, lateral files and storage towers offer optional pedestal front locking to provide maximum security and flexibility in configuration. Up-charge applies.

When locks are ordered, units are shipped randomly keyed. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Lock Colors: Matte Black (MBK) or Arctic Silver (ASL)

Pedestal Configuration Change

Single pedestal desks have one box/box/file pedestal. Double pedestal desks have a box/box/file pedestal on the left side and file/file pedestal on the right side. Returns are configured with either file/file or box/box/file pedestals. Credenzas are configured with file/file pedestals.

Drawer configurations on fixed height units can be changed from either a box/box/file or a file/file configuration, on units 30" h, but must be specified at the time of order. An additional \$192 upcharge per pedestal needs to be added to the list price of the unit. (*Must keep the same pedestal depth.*)

Special Construction

Vision offers large offering to create many types of configuration. Contact Customer Service if you are having trouble with finding the right units to complete the desired configuration. Requests need to be approved by JSI engineering.

Vision Product Information

Vision integrates height adjustability into the workplace environment in multiple ways to meet the unique needs of the customer. Here is an overview of the most popular ways.

Adjustable Height T-Base Table Desks

Tables with exposed telescoping legs is offered in Standard and Extended Range with electrical units. Select units also offer Pneumatic.

See Page [VS2-VS32](#)

Adjustable Height Cantilever

Creates a statement piece when using the Cantilevered Table and Support Credenza together.

See Page [VS34](#)

Use with Cantilever Support Credenza
See Page [VS34](#)

Adjustable Height Single Pedestal Desk

Single pedestal adjustable desks can be used with companion fixed bridge or return to eliminate pinch points.

See Page [VS37-VS39](#)

Use with Fixed Bridge or Return
See Page [VS54-VS56](#)

Adjustable Height Bridge and Return

For applications when desk is stationary and height adjustability is needed on the bridge or return. Units created to eliminate pinch points.

ERGO Adjustable Work Height Mechanism

Our proprietary adjustable work height mechanism can be specified on many of the models in Vision. ERGO can only be specified in a HPL (high pressured laminate) or Veneer.

ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge, or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button activates the electric powered lifting columns for adjustability from sitting height to a standing height. A ¾" thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that ERGO adds ¾" to the standard height of the desk and the installation will decrease knee space depth by 8".

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When ERGO is added to a worksurface in an "L" or "U" group, all units in the configuration need to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the ERGO mechanism and the top. This is accomplished by adding a ¾" sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the ERGO mechanism.

Height adjustment starts at 30 ¾", to a standing height of 49 ¾", a range of 19 ½".

NOTE: The kneespace depth is decreased when the ERGO mechanism is specified. Contact Customer Service for dimension information.

The Ergo mechanism and controls are warranted for a period of (1) year. The rest of the casegood unit(s) are warranted under the Lifetime Warranty.

Vision Conference Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Vision Veneer product line. To attain a pleasing, symmetrical pattern, all cherry, maple, walnut veneers in Vision Veneer are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Book-Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book

Vision Veneer is available in flat cut cherry, maple, walnut and black oak veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Vision Veneer product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below show the tight pattern used on Vision Veneer. Use the appropriate pricing column when specifying Double Cut veneer.

Solid painted finishes on MDF are also offered to provide an accent to the Vision Veneer product.

Work Surface Construction

Tops are 5-ply balanced construction, 1 3/16" thick with solid matching hardwood edges. Surfaces are available in wood veneer or high pressure laminate. No additional charge for using our coordinating high pressure laminate with a veneer grain pattern with finish wood edges.

Laminates

Vision Laminate features TFL (thermally fused laminate) chassis and components. Worksurfaces are available in a HPL (high pressure laminate) or in the TFL surface, when indicated by the pricing column.

Edges of the worksurface are impact resistant (PVC) on TFL and HPL tops. The laminate is offered in 16 wood grain patterns and 5 solid colors. The wood grain laminate features an embossed grain to hide finger prints and light scratches. The solid laminate is smooth to the touch with a semi-matte finish. All Vision Laminate products are indoor-air certified by GreenGuard.

The chart below lists the laminates available on the Vision product.

Top Surfaces (*Conference Tops and Credenza Tops*)

Tops have a 3-ply balanced construction. Tops are 1-³/₁₆" thick with coordinating PVC edges.

Conference Tops feature 3mm PVC edges on all sides and are available in HPL. Limited sizes available in TFL, see individual models.

Credenza Tops feature 3mm PVC edges on the user side only. Remaining edges are banded with 1mm PVC which allows for a seamless appearance when units are mated end-to-end or back-to-back.

TFL features on *Conference Top Surfaces**

- fused to the 45 pound density substrate of the top for a durable wear resistance surface
- tops are laminated on both sides
- available in all the wood grain and solid patterns

HPL features on *Conference Top Surfaces**

- bonded layers create a durable wear resistant surface
- tops are 3-ply balanced construction
- matched to the TFL wood grain and solid patterns

Case Construction

Outside panels are ³/₄" and joined together with dowels reinforced with screws, and metal fasteners for increased stability. Tops are secured to the chassis with screws through pre-bored stretcher rails and pocket holes.

Cabinet doors have 110° swing hinges to allow adequate access into the interior of the cabinet.

Drawers

The unidirectional V- Fold drawer box is a durable miter-fold drawer structure which is glued and doweled. The ¹/₂" thick drawer sides are wrapped in a high grade maple vinyl, with an attached front. The drawer front is attached to the four sided box.

Optional four corner dovetailed wood drawers are available. Specify and add 10% per unit.

Drawer Suspension

High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Locking

All free standing credenzas, and bench height credenza offer optional pedestal locking.

When locks are ordered, units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Product Modification

Wood Drawers

Four corner dovetailed wood drawers must be specified at the time of order placement. There is a 10% upcharge added to the list of each item.

Special Construction

Vision Veneer offers large offering to create many types of configuration. Contact Customer Service if you are having trouble with finding the right units to complete the desired configuration. Requests need to be approved by JSI engineering.

Special Finishes

Special finishes can be requested by following the instruction in the general introduction section. There is a one time charge of \$372 list per order.

Finish Sheen

All veneer finishes are standard in 35-sheen, with the exception of Raven. Raven is only offered in 15 sheen. All other finishes are available in 15 sheen, see standard modifications page VI40.

Data Adapter Applications

Data adapter kits ship with each power and data unit.

Adapter plates are marked on the back with letter designators to indicate the data jack manufacturer, series and style. Websites are listed below for quick reference to verify data jack series or style.

Included with EC9, EC10, EC13, EC15, TCP110 and CC9CNE1-0708.

NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice.
